

TRUCE ASKED; IRISH PEACE HOPE RAISED

DUBLIN, July 6.—It is officially reported that masked men shot at Peter Keys, a laborer, from his home at Rushin, Queens County, and shot him dead. Thomas McCortan of Tipperary, Roscommon, was shot and dangerously wounded by masked men in his father's house.

DUBLIN, July 6.—The residence

IRISH TRUCE IS ASKED DURING PEACE PARLEY

General Smuts Returns to London With High Hope of Early Peace.

(Continued from Page 1)

of the Lord Muskerry, Springfield, Castle, at Drumcree, County Limerick, was burned Monday night.

WITNESS IN MURDER CASE IS KIDNAPED.

CORK, July 6.—(By Associated Press.)—Patrick Brady, who witnessed the killing of Canon Magner, parish priest of Dunmanway, in December last by Cadet Hart, was kidnapped today by unidentified men. The kidnapping was taken from his residence in West Cork. Brady testified at the military inquiry into the killing. Hart was found guilty of murder while temporarily insane.

The Rev. W. Kennedy, president of St. Finian's College in Ennis, was arrested by soldiers this morning and removed to Limerick. The arrest of the clergy of the Killaloe diocese was in progress at the college when the arrest occurred. The charge against the Rev. Kennedy is not known.

SOLDIERS SEARCH IRISH FOR ARMS.

DUBLIN, July 6.—The negotiations under way for peace in Ireland have not as yet brought about an armistice and today soldiers were searching pedestrians believed to be carrying arms. A police patrol was ambushed last night in Camouflage, County Wexford, by men with bombs and rifles. The patrol consisted of four constables, who were wounded.

Other ambushes occurred in Corrofin, County Clare, and Thomastown, County Kilkenny, without casualties.

DE VALERA HOPES PEACE WILL COME.

COPYRIGHT, 1921, by United Press.) NEW YORK, July 6.—Hope that the present negotiations will lead to peaceful settlement of the centuries-old Irish question was expressed by Eamon de Valera, president of the Irish Republic, in an exclusive statement made to the United Press today. The statement—the first authorized public expression of de Valera's views since the negotiations started, follows:

"We trust that the British prime minister's letter may prove to be the first step toward substituting civilized basis of right and reason for that of barbaric violence in the arbitration of the question of Ireland between Ireland and Great Britain. "Should the conference now being held lead to a final understanding and lasting peace between the peoples of these two islands, which have been in a state of war or suspended war for more than seven and a half centuries, it will set a worthy Christian precedent for the entire world. "The British prestige will be restored whilst young Ireland will be free to develop its own resources and its courage and steadfastness, the ideals for which millions were led to offer their lives in the great war."

Move to Reorganize State Government.

SACRAMENTO, July 6.—As a final step in working out the plan of reorganizing the state government in conformity with the bills passed by Governor W. D. Stephens, a meeting of the heads of all departments affected and members of the state board of control will be held in San Francisco early next week. It was announced by Stanley Allen, secretary of the board of control, who has been working for several weeks on the preliminaries of the reorganization scheme.

Allen said all the details of reorganizing the departments, commissions and agencies of the government as called for in the new laws which became effective July 29, have been worked out, but the conference of department heads is needed, he declared, to dovetail the mass of detail.

The real news in the reorganization program lies, it is said, in the appointments that will be made.

Paris-Brussels Train Derailed, Six Killed.

PARIS, July 6.—The famous Paris-Brussels express train was derailed near Mons today. First reports have it that six persons were killed and several injured. It is not known whether any Americans were among the casualties or whether any were on board the train. The accident is said to have been due to foul play, part of the tracks having been torn up.

Brolaski Is Accused Of Film Stock Fraud

NEW YORK, July 6.—Three leaders in the social and business world are being sought for by the police, on warrants issued following the return of secret indictments by the Grand Jury. One man is under arrest.

All four are charged by the indictments with having sold stock of the Standard Film Industries Corporation of which they are officers in excess of the amount declared by them as prescribed by law. The four men are:

Anthony J. Drekel Jr., of the famous Drekel family of Philadelphia, whose wife is the former Marjorie Gould Drekel, the district attorney is informed, is in London.

Elliott Norton, a corporation lawyer of 2 Rector street, this city, son of Prof. Charles Eliot Norton of Harvard University, and owner of a distinguished family. It was the arrest of Norton today that made public the indictments.

Louis E. Jennings, organizer of big business and president of the American Film Laboratories, Inc.

Harry Brolaski, politician and Wall street operator.

CHARGE OF STOCK FRAUD IS CHARGED.

District Attorney Edward Swann said that the stock issued has been shown to be \$350,000, whereas the statement made in 1916 at the time of incorporation, provided for the issuance of only \$100,000 in common stock, or \$100,000 worth. The company was incorporated in Virginia, which required all corporations to issue a statement of the amount of stock to be issued. The actual cash received from the sales is only \$200,000 on account of the deduction of the high commission of brokers who sold the stock below par.

Norton was arrested and arraigned before Judge Alfred J. Talley in General Sessions. He pleaded not guilty and was held in \$5,000 bail.

This, an old case, declared Norton, his office today. "It was all thrashed out before Chief Magistrate William G. McAdoo two or three years ago. It is purely a technical violation of the law."

THE NEW YORK TIMES.

"We did file in Virginia, where the corporation was incorporated, a statement calling for the issuance of shares at \$5 share. That is required by Virginia law."

ADMITTS FAILING TO FILE STATEMENT.

"When we were ready to issue new stock, the law was in process of being very busy and neglected to file a statement that we intended to issue additional stock. That is all there is to it. I am sure the violation of the law is purely technical. The penalty of the law is a maximum penalty of seven years in state's prison or \$3000 fine, or both."

Among the many who have invested their savings in the stock of the corporation are immigrants and negroes. It was on the complaint of the former to the State Industrial Commission that an investigation was initiated.

Situation in Mexico Is Serious, Says Gen. Gomez

BY INTERNATIONAL NEWS SERVICE LEADERS WIRE TO TRIBUNE.

MEXICO CITY, July 6.—General Gomez, commander of the Mexican military forces at Tampico, who came here to confer with President Obregon, said today that the Tampico situation is very grave. Within a few days 20,000 laborers will be out of work as a result of the strike in the Tampico oil fields, General Gomez declared.

The English companies, General Gomez said, were continuing to work and were paying the government the new export tax, which some of the American companies have refused to pay. General Gomez declared that when he returned to Tampico he would compel the oil companies to pay discharged workmen three months' pay as provided under the laws.

Mexican officials admit the situation is serious, but only economically and not politically, they say. A report was current on Tuesday that five American warships were en route to Tampico. It caused much excitement but the government calmed the populace by saying it had no information that the warships were coming into Mexican waters.

There was another report that the American government had sent a new note dealing with the oil situation, but this was officially denied by the foreign office.

WASHINGTON, July 6.—Reports which have gained some currency in Mexico City that the United States has despatched a new note to the Mexican government were denied today at the state department. It was stated officially that there had been no communication despatched to Mexico City and that the "Mexican situation is unchanged."

Eleven Planes Leave Bay on Non-Stop Trip to San Diego

Under command of Commander John M. Towers, the squadron of eleven seaplanes which accompanied the Pacific fleet to San Francisco took off from Sausalito bay today for a non-stop flight to the San Diego base. The planes took off in

two groups, the first six at 8:30 a. m. and the second five at 8:45 a. m. To render any assistance necessary to the seaplanes, sub-chaser No. 139 was stationed off the harbor and the U. S. S. Gannet, a mine-sweeper, was stationed off Port San Luis. All of the planes are of the F-6-L type.

500 Koreans Fall in Border War With Japanese, Report

SEOUL, Korea, July 6.—(By The Associated Press.)—Reports have reached Japanese military headquarters here that a battle has occurred

on the Siberian border between Japanese and Koreans, in which five hundred Koreans were killed and wounded. Several thousand malcontent Koreans are alleged to have joined the Siberian Bolsheviks.

Seven Are Arrested in Alleged Arson Plot

LOS ANGELES, July 6.—Seven men are under arrest here today in what police declare to be an arson plot following fire in a residence last night. The aged woman owner of the residence received a letter a week ago threatening destruction of the house because she "failed to give food to a poor man who asked for it."

The suspects had rented the house from her and furniture was removed before the fire. In the effects of one of the men is an insurance policy for the furniture, taken out June 30. Police seek to connect the case with that of a threatening letter received by owners of an ice-cream plant in the district, which predicted destruction of the plant because its owners "refused work to a white man."

U. S. Government To Remain For Summer

WASHINGTON, July 6.—The U. S. Government has decided to remain in Washington this summer, President Harding, it was learned today, has not given up the Alaskan trip, it is said. Senate leaders planned to work ahead on tariff and taxation.

VENEZUELA FACILITATED.

WASHINGTON, July 6.—A message of congratulations on the anniversary of the independence of Venezuela was sent by President Harding to Dr. V. Marquez Bustillo, provisional president.

GUN EXPECTED TO HURL 4-TON GAS BOMB 300 MILES

New Invention May Be Used to Drive in Bolts on Construction Work.

NEW YORK, July 6.—A silent gun that will shoot four-ton explosive gas bombs 200 or 300 miles at a velocity of one to five miles a second, is in process of development by Miller Leez, Hutchinson, Hudson Maxim and their associates.

The idea is based on a new principle in the explosion of ordinary smokeless gunpowder.

In a demonstration yesterday in an office on the fifty-first floor of a New York skyscraper, a steel bullet three inches long and a half inch in diameter was shot through a three-quarter-inch steel plate at a velocity of one mile per second.

This is a materially greater velocity than has ever before been developed in projectile work of any kind.

The demonstration was absolutely silent, the only sound being the impact of the bullet as it bored through the plate.

The silence is on an entirely new principle and is in no way connected with the old principles of the Maxim.

The original invention is the work of Robert Temple, an English inventor.

Meanwhile the invention is to be applied to steel construction work. A threaded steel bolt was driven through a three-quarter-inch steel plate. The gun was held in immediate contact with the plate, and the charge was measured so that the bolt stopped in the plate. The threads were left intact and a nut was screwed on. It is believed by the inventors that this will be used in place of the present method of drilling holes through steel.

The charge was only twenty grains of ordinary smokeless powder.

The gun used closely resembled an ordinary air compression drill. There was no recoil, no smoke, practically no heat. Only a faint hissing sound of slowly escaping gases after the discharge.

It was announced that the model had been used by divers under water for application to steel work, and that it operated as well as it does in the air.

Dr. Hutchinson was formerly chief engineer to Thomas A. Edison.

Premiers Seek Exchange of Views On Disarmament

Action of Conference May Mean England Will Take Initiative.

BY ASSOCIATED PRESS LEADERS WIRE TO TRIBUNE.

LONDON, July 6.—The conference of imperial premiers has decided to postpone consideration of naval questions pending the exchange of views between the United States, Great Britain and Japan relative to a disarmament conference, it became known in semi-official circles here today.

The decision is regarded as significant, and is taken by some London papers to suggest that England may take the initiative in an effort to bring about discussion of limitation of armaments between the three naval powers.

Champions of the disarmament movement hail the decision as a first step toward consideration of the details of the plan by the three nations involved.

Capitalist's Body Is Found in Well

BY ASSOCIATED PRESS LEADERS WIRE TO TRIBUNE.

SEATTLE, July 6.—The bottom of a 27-foot well, in 14 feet of water, the body of Wigbert Moeller, 68, a retired capitalist and heavy property owner here, was found in the yard of his home yesterday. The owner said death apparently was by drowning, but an autopsy would be performed.

The body was discovered by Moeller's butler, who reported that Moeller had left the house about an hour before to examine the well. The body was standing upright in the water.

Moeller had been married a month before and his bride, Mrs. Addie Page Moeller, was downtown at the time of the tragedy. She expressed the opinion that he had fallen into the well in attempting to sound it.

Boycott Planned On Dry Firms by Antis

BY ASSOCIATED PRESS LEADERS WIRE TO TRIBUNE.

NEW YORK, July 6.—Organizers of the independence day anti-prohibition parade on Fifth avenue announced today that members would be furnished with names of commercial houses that favor prohibition and would be asked not to deal with such houses. The organization intends going into politics, also, it announces that it will support various candidates for national, state and local offices.

Fordney Tariff Bill Designed to 'Aid Prosperity'

Fear Makes Minority Statement Attacking Dye Control.

BY ASSOCIATED PRESS LEADERS WIRE TO TRIBUNE.

WASHINGTON, July 6.—A tariff law which would "become the magna charta for perpetuation of our American standards of living and be the constitution of a uniform and universal prosperity" was the goal which the Republican members of the House says and means committee set for themselves in drafting the administration's permanent tariff bill says a report filed with the House today by Chairman Fordney. With the report the bill was formally presented in the same form it was introduced last week.

The report was unsigned, but Fordney said he understood all of the Republican members of the committee, except Representative Fear of Wisconsin, were ready to affix their names to it. Fear made public last night a minority statement attacking the dye control and other provisions.

Democratic members of the committee will meet late today to draft a minority report which probably will be presented tomorrow. Republican leaders will seek at a conference of all Republican members tonight to reach an agreement as to procedure and methods of handling the bill in the House.

When Fordney offered the report Representative Garrett of Tennessee, acting Democratic leader, objected to its presentation on calendar Wednesday under the House rules, but Speaker Gillett permitted the report to be filed. Discussion of the bill will begin tomorrow under present plans of Republican leaders.

The report, as presented by Fordney, said the bill was designed to encourage American industry without, at the same time, saddling upon the American consumer any unnecessary burden.

Discussing protection against possible inroads by German competitors the report said the Germans had open to them only the American markets into which they could go with methods "as ruthless and as destructive" as ever had been known in commerce.

ALL RAIL UNIONS WILL TAKE VOTE ON REDUCTIONS

While Referendum Is Being Taken Leaders Will Seek Better Terms.

CHICAGO, July 6.—The Big Four railroad brotherhoods were preparing ballots today for a vote of their memberships on the 12 per cent wage reduction ordered by the United States Railroad Board, which took effect July 1. The referendum vote will be concluded by September 1.

This follows action of the brotherhood chiefs after five days of conference, including "they cannot accept the responsibility of accepting any wage reductions."

The switchmen's union joined the brotherhoods, which include engine drivers, firemen, conductors and trainmen, in calling for the plebiscite.

ACTION NOT OUTLINED.

It is expected that other unions meeting here will take similar action. Immediate action of the railroad department of the American Federation of Labor, which has already voted overwhelmingly against the cut, is not yet outlined.

While the vote is in progress union chiefs hope to get together with rail executives to bargain for better terms.

The resolution adopted by the brotherhoods demanded that the working agreements between workers and management be kept intact.

UNIONS REPRESENTED.

The organizations that were represented at the conference last night at which the decision to have a referendum vote was made follow:

Brotherhood of Locomotive Engineers; Brotherhood of Firemen and Enginemen; Brotherhood of Railroad Trainmen; Order of Railway Conductors; Brotherhood of Railroad Signal Men of America; Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees; Brotherhood of Railway Carmen of America; International Alliance of Amalgamated Sheet Metal Workers; International Association of Machinists.

Girl's Screams Drive Man Away; Victim Beaten

Miss Madeline Simpkins On Way Home in S. F. Has Narrow Escape.

SAN FRANCISCO, July 6.—Seized by a footpad who had followed her along the summit of Nob Hill at midnight, Miss Madeline Simpkins, 25-year-old private secretary, was picked up bodily by her assailant when she screamed for help.

When she would not desist from her calls he raised blows on her head with a blunt instrument and finally dropped her, leaving her dazed and bleeding on the sidewalk. The attack occurred on California street near Jones.

Miss Simpkins was on her way to her apartment at 1250 Pine street. Suddenly two hands were pressed across her face and her mouth held firmly.

"If you don't scream you won't get hurt," said her assailant. She cried out with fright and was struck on the head. Believing her unconscious he carried her to the edge of a vacant lot when once more she yelled for aid. Her assailant then dropped her and ran.

Legion Protests

Mrs. O'Hare's Speech

BY ASSOCIATED PRESS LEADERS WIRE TO TRIBUNE.

STOCKTON, S. D., July 6.—Harold Mason Post of the American Legion adopted a resolution protesting the scheduled appearance here Friday night of Mrs. Kate Richards O'Hare, who was abducted last Saturday in Twin Falls, Idaho. A committee was named to appear before the mayor and urge him to prohibit Mrs. O'Hare from making a speech here.

ists; International Brotherhood of Blacksmiths, Drop Forgers and Helpers; International Brotherhood of Boilermakers, Iron Shipbuilders and Helpers of America; International Brotherhood of Electrical Workers; International Brotherhood of Firemen and Oilers; Order of Railroad Telegraphers; Switchmen's Union of North America; and the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers.

SHOPS REOPENED.

SPRINGFIELD, Mo., July 6.—The locomotive shops of the St. Louis and San Francisco Railway Company here were reopened yesterday, giving employment to between 800 and 900 men. The shops had been closed since January. The Union's working force here is still about 1400 under normal.

PEACE ACTION WILL LEAD TO LEGAL BATTLES

Suits to Test Validity of the Resolution Predicted by Flood of Virginia.

By HERBERT W. WALKER, United Press Staff Correspondent. WASHINGTON, July 6.—Validity of the peace resolution will be challenged in legal battles which will probably be carried to the United States Supreme Court, Representative Flood, Virginia ranking Democrat on the House foreign affairs committee, predicted today.

He declared that it will never be determined finally whether Congress can declare peace with Germany and Austria-Hungary until the high court passes on the question.

The suits to test the resolution probably will be brought by Germans whose property was seized by the alien property custodian during the war, or may arise through other suits which would hinge on the date of official peace, Flood said.

The Germans, it is known, are planning a big legal drive against the federal government to regain their property. The peace resolution recently signed by the President closes all the seizures, penalties and fines affecting these interests.

Hundreds of lawyers in New York have been retained by the Germans to fight for the property, and the first suits probably will be to set aside the sales to American citizens, which were made by the alien property custodian under the authority of an act of Congress. These sales involved many of the invaluable dye patents, which are now in the hands of Americans.

SHOPS REOPENED.

SPRINGFIELD, Mo., July 6.—The locomotive shops of the St. Louis and San Francisco Railway Company here were reopened yesterday, giving employment to between 800 and 900 men. The shops had been closed since January. The Union's working force here is still about 1400 under normal.

CITIZENSHIP IN SCHOOLS; TOPIC OF OAKLAND MAN

Lewis B. Avery Addresses
Education Association At
Des Moines.

DES MOINES, Ia., July 6.—At the session of the National Education Association here yesterday, Lewis B. Avery, of Oakland, Cal., presented a resolution to the committee on resolutions recommending that the association affirm belief that there exists a serious need of increased public intelligence regarding the purpose of taxation, the levying and disbursement of taxes, and regarding the rights of the citizen in public funds. The committee announced it would make its recommendation to the convention as a whole Friday.

Avery's resolution further petitioned the association to go on record favoring the teaching of citizenship in the public schools.

Among the speakers yesterday were Dr. John H. Thayer, United States Commissioner of Education, and George D. Strayer of New York.

DUTY TO CHILDREN.
From a different angle, but no less important, is the "Duty to the State" to the child. Judge Ben B. Lindsey said last night in an address before the Association.

"The next phase of this struggle concerns the responsibility of the State for the health and morals of the child. Since health and morals are so nearly related, they may be considered as one."

MARRIAGE LAWS.
"The 'Parenthood of the State' includes its duty to see that the child is well born. By strictest kind of marriage laws, the State must forbid, as far as possible, the bringing of children into the world unless they come from healthy parents. The State must no longer be the victim of conditions over which it has no control, but for which society and the State itself is to blame. When the State is imperiled, it calls the child to its aid. The child must come when it will be regarded as a crime against childhood if the State permits that child to suffer from under-nourishment due either to poverty or ignorance."

Since it is the accepted duty of the State to educate the child, it is far more its duty to feed the child.

TIME TO SAVE BOY.
"The time to save a boy is in the nine months before his birth and the nine months after his birth. We must have maternity laws. We must have laws to see that the child does not come into the world undernourished if the parents are unable to perform that function, and if they are able to perform it, to see to it that it is performed."

"It is not the purpose of the 'Parenthood of the State' to usurp the function of the home or to permit the natural parent to shirk, but rather to see that the home performs its function and that it is careless, and to see that no child suffers because of poverty where the home is helpless. The State must preserve the home for the child."

WARSHIP TO PERU.
WASHINGTON, July 6.—The division of the American commission to the celebration of Peruvian independence will leave New York July 8, it was announced. The division will consist of the oil-burner, the battleship, the Nevada and Oklahoma. The vessels will arrive at Callao, Peru, July 24.

Two Blows End Thug's Efforts To Collect Coin
A robbery was foiled early this morning when George Grant, 1068 Glendon street, knocked the hold-up man to the ground twice with two uppercuts.

Grant was stopped by the robber at Glendon street and Edgewood avenue as he was walking home shortly after 1 o'clock. The man jumped from behind a tree, and grabbed Grant by the coat.

"Reach over all the back that you have in your pocket and make it quick!" said the holdup man.

Instead of doing as he was told, Grant struck the man twice, each time knocking him to the ground. When the holdup man got on his feet the second time he ran through a vacant lot and escaped. He was not armed.

Grant notified the police and Police Inspectors Joe Enright and Edward O'Donnell searched the neighborhood, but could find no trace of the man.

Exnicios Promoted To Western Dry Agent
SAN FRANCISCO, July 6.—Announcement was made today of the removal of John Exnicios from his position as temporary supervisory prohibition agent, and his appointment as Western representative of the Federal Prohibition Commission. Exnicios was promoted to the position of Western representative of the Federal Prohibition Commission. He has held here since his recent appointment. Enforcement of the prohibition laws in California will be handled by Exnicios. He is a native of the United States and has been in the hands of J. Forrest Mitchell, prohibition director for the district, with Exnicios available for orders from Washington for special work.

Letters of Gratitude
Eloquent language and illustrations in advertising may appeal to many, but after all it is the homely, sincere letters from women, overflowing with grateful expressions for health restored by Lydia E. Pinkham's Vegetable Compound, that convince other suffering women that there is a medicine that will help them also. Many such letters are being published in this paper from day to day, and it is to any woman's advantage who suffers from female ailments in any form to give this old-fashioned word and herb remedy a trial.—Advertisement.

500 Playground Experts Will Rally Here for Week

Oakland will be the mecca for approximately 500 playground experts and workers in attendance upon the twenty-eighth annual convention of the American Physical Education Association meeting in this city July 13-23, with Mosswood Park and the Municipal Auditorium ballroom as the program centers. Scores of noted men and women of the country will be numbered among the convention speakers and guests. The convention will be opened at 8 p. m. Monday, July 13, in the Auditorium ballroom by Miss Elizabeth Stoner, physical director of Mills College and president of the Bay Cities Physical Education and Recreation Association, presiding. The formal will be extended to the delegates by Dr. A. D. Browne, director of the physical department for men at Stanford University. Responses will be made by Dudley E. Reed, professor of physical education and hygiene, University of Chicago, and president of the convention body. Dancing will conclude the opening session.

E. B. de Groot, chief scout executive, Los Angeles, and S. Hagelhorn, department of physical education, San Francisco public schools, are scheduled for Tuesday morning speakers. Essentials of physical education, formal activities, health education, related activities, and athletic activities will be discussed.

LUNCHEON AT PARK.
A "Big" idea luncheon will take place at Mosswood park at noon. Presiding, Stanford University, representatives of national sections, North American Gymnastic Union, playground, Y. M. C. A., College Men, and Athletic Union. Dr. W. C. Wood, director of the University of California, will give five minute talks.

Oakland recreation department will put on the 2 p. m. program with a playday for girls, posture practice, rhythmic and dramatic activities, athletic games and stunts.

"The Indian Legend of the Hidden Treasure" with a cast of several hundred representing Indians, pioneers of '49; the grains, metals, fruits and flowers of California, will follow under the direction of Mrs. Enelle A. Hollister, secretary of the city of Oakland, and Mrs. Addie Mosher, president of the Oakland Recreation Department.

FARM COURSE TO BE SPLIT IN TWO
Students majoring in agriculture with the University of California hereafter will receive the first two years of their training at the Davis farm school, reserving the last two years of the four-year course for academic work in problems of agriculture, food marketing, and related subjects, according to an announcement made today from the office of President David P. Barrows.

The announcement is regarded by some as a compromise with the minority faction who, at the last legislature, fostered a proposal for the complete separation of the college of agriculture from the other departments of the university under control of a new board of regents. This action contended that the university courses in agriculture were not sufficiently practical to be worth while. The university authorities on their part contend that students would lose by a complete separation in that their course would include no general subjects.

Regarding the new plan, the university announcement says: "Experience has shown the present method to have serious defects. Since the farm students, under the broader training afforded by various curricula at the Berkeley college, and the Berkeley students who neglect the Davis farm courses lack that practical contact with the subject which is so necessary for successful farming."

The new plan will mean a readjustment of the courses and teaching staff both at Berkeley and at Davis as four-year courses in agriculture are being offered now at both institutions. Under the new plan, all freshmen and sophomore agriculture work will be carried on at Davis and all upper division work at Berkeley.

Resinol
Alkali in Shampoos Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is Mulisified Resinol Ointment, which is very cheap and beats anything else all to pieces. You can get Mulisified at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in. About a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your drugist gives you Mulisified.—Advertisement.

TRAINING CAMP AT PRESIDIO HAS 475 REGISTRATION

Instructions in Things Military Begins; to Continue for Thirty Days.

SAN FRANCISCO, July 6.—Under the command of Lieutenant Colonel Elmer W. Clark, the citizens' military training camp, in which more than 600 young men of the Pacific Coast states will be given military training for a period of thirty days, opened today at the Presidio with more than 475 men from California making up the training camp personnel.

Headquarters of the camp have been established in the old guard house, in the exact center of the cantonment, with Lieutenant Colonel Allen Smith, Jr., executive officer, and Major Bernard S. Sharp, adjutant, Colonel Smith announced today that final preparation for the receiving of successful applicants had been made.

Women's Clubs Will Hear Annual Report

Reports of the annual convention of the California Federation of Business and Professional Women's Clubs will be presented before the luncheon of the local club at Hotel Harrison tomorrow. Miss Jessie Eckles, corresponding secretary of the state federation, and Mrs. Bessie Wood Gustafson will be the speakers.

MAN'S ARM CUT.
Martin Slattery of Richmond was treated last night for a deep cut in his right arm at the Emergency Hospital. He told the police that he had been attending a house party near Thirty-sixth and San Pablo avenues and that he fell through a window. He was taken to the hospital by Lee Clair of 4107 Adeline street, who was passing by in his automobile.

Diving bells were used in the 16th century in efforts to locate wrecks of the 15th century.

END OF BUILDING TIE-UP IN SIGHT, SAY CONTRACTORS

Union Chief Says Members Are Voting to Return in Various Trades.

Members of several unions of the Building Trades Council, including carpenters and plumbers, were expected to report for work today, following their vote to accept the proposal of the industrial committee of the San Francisco Chamber of Commerce to accept the wage reduction of 7 1/2 per cent for all crafts and to agree to working conditions acceptable to the Builders' Exchange there.

Balloting on the question by other unions has already been started and contractors predict a speedy termination in the construction tie-up. The Elevator Constructors' Union was the first to report to work under the new conditions. Several of its members reported yesterday on jobs operated by the Builders' Exchange.

Four of the large unions last night voted to accept the new conditions and ratified the recommendations of the Bay District Council of Carpenters, which was one to resume operations. The four are:

Carpenters' Union No. 1022, United Bricklayers' Union, Bricklayers' Union, Sheet Metal Workers' Union.

IRONWORKERS TO VOTE.
Two organizations which postponed a vote and which will act soon are the Structural Ironworkers' Union and the Steamfitters' Union.

The acceptance of all unions connected with the Building Trades Council to the proposal of the industrial relations committee will be announced publicly as soon as the returns are known. P. H. McCarthy, head of the council, said today that most of the returns will be in tomorrow.

The reporting to work of the Elevator Constructors started several important downtown jobs in San Francisco yesterday, and the officials of the Builders' Exchange say that two or three days will find all classes of skilled mechanics back on the job.

"The unions will accept," said Frank C. MacDonald, vice-president of the Trades Council, today. "The unions will accept. Practically all of the organizations will vote upon it Tuesday and Wednesday night, and Thursday we will announce definitely the results."

UNIONS WILL ASSIST.
"The union men are not going to hold up building in San Francisco any longer."

"I have talked to scores of the rank and file of the unions as well as the officials and I find that they favor returning to work. As far as we are concerned everything will be satisfactorily settled by Thursday or not later than Friday."

The decision of the unions to return to work under working rules and wages agreed to by the contractors affiliated with the Builders' Exchange is expected to place more than \$5,000,000 a week in circulation. More than 150 men will resume employment. Within six weeks, it is said, \$35,000,000 worth of finished buildings, large and small, will be ready for tenants.

An end to the tie-up is reported at Fresno and at Vallejo and there are said to be indications that the general program throughout the state, wherever it has been halted, is to be resumed within a few days.

Auto Ferry Slip Is To Be O. K. Saturday

Service will be resumed Saturday at the new Oakland auto ferry slip, according to an announcement made today from the superintendent's office of the Southern Pacific Company. It was necessary to close the dock while repairs were being made. The repairs were necessitated when the ferry Melrose broke away about 25 feet of piling.

When the dock was closed Monday night, it was necessary to call out police reserves to handle the hundreds of automobiles which made a rush for position at the Broadway ferry.

Color and Cutting

There are two things about which you can be absolutely certain when you buy a diamond at this store—whether it be a stone worth only \$50 or one worth \$500.

You can be certain that it is properly cut and flawless and that its color is right.

Though our large stock includes diamonds of all sizes—to fit all purses—we carry only one quality. Our diamonds are all properly cut and perfect and they are all blue-white in color.

Carnation Home Cooking Lessons

Conducted by Mrs. Mary Blake

These lessons on milk cookery will appear weekly. Mrs. Blake's counsel will be helpful and stimulating, because of her practical experience in home cooking. She will answer any question on cookery asked by her readers. Address Mrs. Mary Blake, care Carnation Milk Products Co., of California, 49 Main Street, San Francisco.

LESSON FOUR

Milk in Camp Cooking

I'm going to talk today about the convenience of Carnation in camp. For it is there that many friends of Carnation first become acquainted with its wonderful usefulness, and carry this knowledge back home with them. A can or two in the lunch kit for the short trip; a case or two in the car for the permanent camp provide favorite home dishes and healthful food in the most remote camp.

Many useful pointers on camp cookery have come to me from men who have spent much time in the open; forest rangers, engineers, etc. These hints have a masculine utility that will make camp cooking easier for women as well.

For instance, this useful suggestion: When leaving camp for an all-day hike, before putting can in the lunch kit, plug the holes of the Carnation can with two pegs to fit and you won't need to worry about it spilling or upsetting, neither will your coffee be creamless.

Camp Chocolate

This quick method for making camp chocolate with Carnation Milk was a mining engineer's discovery. Mix in individual cups 1 tsp. chocolate, 1 cup boiling water, and sugar to taste. Fill cup with Carnation Milk and stir well.

What would camp coffee be without Carnation? And how satisfying it tastes made in a tin can and creamed with Carnation!

Drinking Milk in Camp

An experienced camper offers this suggestion for having milk to drink in camp:

Heat water to boiling point, then add Carnation Milk in equal quantity and let cool. (Serve warm if desired.) This modifies the rich, full flavor of Carnation for those who have not yet acquired the taste.

If you are camping for a long time—a month or two, or the whole summer—you'll want variety in your cooking and Carnation Milk will help you to have it.

Brown Bread

Rainy days will descend on the most optimistic camp at times. Such days are good times to treat the crowd to brown bread with their beans. Here's the recipe for it:

One cup white flour, 2 cups graham flour, 2 cups Indian meal, 1 tsp. salt, 1 tsp. baking powder, 1 cup molasses, 1/2 cup Carnation Milk diluted in 1/2 cup water. Sift white flour, graham and Indian meal, salt and baking powder together; add the molasses and the Carnation Milk mixed with the water. Beat well and steam in buttered mould for three or four hours.

(Clip and save this Lesson for future reference. If you have missed any previous lesson, I will be glad to send it to you on request.)

Fresh fruit is a treat in camp and yet almost always available. Mountain huckleberries, blackberries, and blackberries vie in deliciousness with any cultivated fruit the market offers. Huckleberry shortcake made with the recipe for Carnation Biscuits, and served with Carnation Milk; blackberry or blackcap dumplings, too; or serve the berries fresh with Carnation Milk.

Carnation Biscuits

You'll want to know how to make Carnation Biscuits, for you can use these for your daily bread, as shortcake, or dumpling dough. One quart flour, 1 level tsp. salt, 2 heaping tsp. baking powder, 1 large tablespoon butter or lard, 8 tbsp. Carnation Milk, 7 tbsp. water, or enough to make soft dough. Sift flour, baking powder and salt into bowl. Rub in with the hands the butter or lard until well mixed. Add Carnation Milk and Water. Roll out about half an inch thick, cut and bake in hot oven for 15 or 20 minutes.

Have ingredients cold, mix rapidly, and your oven hot at your biscuits will be delicious, light and rich.

Will Carnation Milk keep without ice in summer?—Mrs. M. P. R.

Yes, indeed. It will keep indefinitely unopened. After opening, keep it in cool, dry place and it will remain sweet from 3 to 7 days, according to the temperature.

Is evaporated milk fully as healthful as ordinary milk?—Mrs. C. G.

Absolutely. You see, Carnation milk is nothing but pure cows' milk with only part of the water removed; all the milk solids are retained. When you add water to it you are bringing back its original content, that's all.

You would have no doubt about the purity and wholesomeness of Carnation if you could go through the Carnation condensery at Ginstine, California, the largest on the Pacific Coast.

Can I use Carnation Milk for thinning mayonnaise?—Mrs. J. C. K.

Yes, Carnation is very good for this purpose. It thins the dressing—mayonnaise or cream salad dressing—to the desired consistency, while at the same time adding flavor and richness.

Mary Blake

Women Are Barred From Kaber Jury

BY ASSOCIATED PRESS
CLEVELAND, July 6.—Mrs. Eva Catherine Kaber, charged with plotting the murder of her wealthy husband, will be tried by a jury of men. Spirited opposition by counsel for Mrs. Kaber against the placing of women on the jury resulted today in the final selection of twelve men to pass upon the case. Five women who had been tentatively accepted for the panel were removed by the defense.

The taking of testimony in the trial commenced shortly after noon.

ACTIVITIES OF WOMEN

Announcements Of Weddings Are Received

Announcements were received today of the marriage of Miss Kate Holmes and Allen Lowther Wetmore on Thursday, June 30, in Berkeley, the ceremony having taken place at the home of the bride's parents, 2335 Hillegas avenue. The bride is the youngest daughter of Mrs. Fred Emerson Brooks. The affair also commemorated the 51st birthday anniversary of the bride's grandmother. The guests were bidden that evening for an informal farewell to the bride couple who were to have been married the following morning. The surprise was the arrival of the bride party and minister, Rev. John Wright Buchanan, the service taking place that evening instead of carrying out the previous plans for the next day. Herman Michels was the best man for Wetmore.

Spring flowers were carried out in the decorations throughout the living rooms. The bride wore a simple gown of white crepe de chine, trimmed in white moire ribbons, and carried an old-fashioned bouquet of white sweet peas with pale pink roses. Mrs. Egbert A. Smith, sister of the bride, attended as matron of honor.

Mr. and Mrs. Wetmore have motored south on their honeymoon and will be away a fortnight. On their return they are to reside in Berkeley.

Wetmore is the son of W. A. Wetmore of Pasadena, formerly of San Francisco.

The bride was a University of California girl and a member of the Alpha Xi Delta sorority.

WILL SOJOURN AT CATALINA.
Mr. and Mrs. Herbert Hall have taken a house on Catalina island for the season and will be joined by other members of the family during their sojourn south.

Mr. and Mrs. Alexander De Bretteville with their son, Alexander De

MISS FLORENCE URQUIHART, whose betrothal to Edward Toepke of San Francisco was recently made known to her friends. The wedding is to take place this fall—Boyc Portrait.

Bretteville, are at Wawona for an extended stay. Mrs. De Bretteville, Mrs. Oblandt and Mrs. Broughton are all accomplished equestrians and spend much time in the saddle.

The past week has seen the opening of a number of the summer homes at Lake Tahoe. The cottage of Dr. Herbert C. Moffitt of San Francisco was opened on Saturday, Dr. and Mrs. Moffitt being hosts to a large house party over the Fourth of July. Dr. and Mrs. Philip King Brown of San Francisco, who have just returned from the East, where they attended the wedding of their son, Hilmyer, have also opened their cottage and will entertain extensively during July and August. Other cottages opened are those of C. Frederic Kohl (Idelwild), J. V. La Veque of Cupertino and C. W. Merrill of Berkeley.

Mr. and Mrs. Andrew Haas of Alameda have returned from a motor trip to Lake Tahoe and the high Sierras over the Fourth. Mr. and Mrs. William Pattiani have also gone to Lake Tahoe for the holidays with their family.

PRETTY WEDDING THIS EVENING.
Half a hundred guests will witness the nuptial service that will unite in marriage this evening Miss Bonnie Lee Himes of Berkeley and Charles Woessner, the service to be at the home of the bride's parents, Mr. and Mrs. A. N. Himes, in the Lake district.

Miss Verna Himes will be maid of honor for her sister and Miss Myrtle Cowan of Berkeley and Miss Eva Martin of Sacramento bridesmaids. Lucia Chastrot will be flower maiden and Marcus Mohler best man. Woessner is son of Mr. and Mrs. Charles Woessner of Los Angeles. He is a member of the class of '18 University of California.

Over the Fourth the Joseph Kellys, Jack Marthens and Mr. and Mrs. Charles Tripler Hutchinson were week-end guests at the Hotel San Rafael, which is the rendezvous for many Eastbay folk this season.

REGISTERED AT DEL MONTE.
Mrs. Bradford Knight and her two daughters, the Misses Mary and Kitty Knight, from Philadelphia, have been enjoying a delightful stay at the Del Monte Lodge with Mrs. Edgar Stowe and Mrs. Charles L. Taylor.

Mrs. Jack Barber of Phoenix has been sojourning at the Del Monte Lodge for several days with Mrs. M. C. Mathieson and Mrs. F. W. Mathieson of Triunfo.

Among the prominent Southern California folk who were at Del Monte last week were Mrs. John D. Spreckels and Mrs. R. G. Dillworth of Coronado, Mr. and Mrs. Kenneth Hunter and daughter of Los Angeles, Mr. and Mrs. Roy H. Pickford of Coronado, Mrs. H. M. Roland of Los Angeles and Dr. V. Bernard Herbst of Pasadena.

GOES TO SLEEP ON BOAT AND AWAKENS IN BAY.
SAN FRANCISCO, July 6.—Dozing at the rail of a Sacramento river steamer almost cost the life of T. Qumada, a Japanese resident of Sacramento, who spent several hours in the water after falling overboard early today.

The vessel was coming close to her pier and Qumada was standing on deck waiting for the landing when he fell asleep. The next thing he remembered he was in the water, astern of the boat. He managed finally to catch hold of some piling and a few hours afterward was found by the police who heard his cries for help.

He was treated for submersion at the Harbor Emergency hospital.

Car Repairers Are Returned To Work.
SAN BERNARDINO, July 6.—Announcement was made here last night that 190 car men, laid off with 1000 other mechanics a month ago, had been ordered back to work. Increased movement of freight cars is said to be causing a demand for car repairs. No locomotive department employees have been re-employed. The car repairers are being replaced according to their seniority.

DECOTO FUNERAL TOMORROW AT 2

Funeral services for Mrs. Janet Lowrie Decoto, Alameda county pioneer and mother of District Attorney Ezra Decoto, will be held at 2 p. m. Thursday from the family home at Decoto. Interment will be in Cypress cemetery.

Mrs. Decoto, who was 50 years old, submitted to an operation a week ago. Her death occurred yesterday. She is survived by her husband, Ezra Decoto, three sons and three daughters. They are: Peter L., Louis A., Ezra W., Mrs. Henry

Crosby, Mrs. August May and Mrs. Edward Palmer.
Born in Scotland, Mrs. Decoto was a child of three when her parents came to the United States, establishing their home in Thompsonville, Conn. An older sister married Adolphus Decoto. While accompanying the couple to the west, the romance of the younger sister and Ezra Decoto culminated in their marriage. The family located in Washington Township, where they are numbered with the earliest settlers. Founders of the town called after them, several points have been named in honor of members of the connection. "Lowrie's Landing" was called after Mrs. Decoto. She has lived 60 years in this country.

Mrs. Decoto was taken ill two weeks ago when visiting her daughter, Mrs. Henry Crosby, in Lakeshore avenue.

The largest hot springs in the world are at Thermopolis, Wyo.

FOUR INJURED ON WAY TO FUNERAL

Four persons are recovering from injuries today following an automobile accident yesterday afternoon in which an automobile driven by Mrs. Fannie Ray, 438 Ninth street, plunged headlong over an embankment and was overturned three miles south of Stockton.

The injured: Mrs. Fannie Ray, 438 Ninth street, Oakland; bruises and contusions. Miss Elsie Ray, 9 years old; same address; lacerations and shock. Miss Rachel Barriekio, 429 South

California street, Stockton; fractured collarbone.
Lyle Barriekio, same address, mail or in the United States Navy; wrenching back.
Mrs. Ray, with her daughter, started to Stockton from Oakland yesterday with Barriekio and his sister to that city to attend the funeral of their father, James F. Barriekio of Stockton.

About three miles this side of Stockton Mrs. Ray lost control of the machine. All four members of the party were picked up by a passing car and taken to the Hayward Central Hospital.

BROKE HIS VOW

"After trying all remedies and doctors for stomach trouble for eight long years I decided I couldn't be helped and swore I would never take another dose of any kind of medicine. But when I saw what May's Wonderful Remedy did for a friend, who also suffered from bloating as I did, I concluded to try it myself. It helped me at once." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Druggists everywhere.—Advertisement.

Towels, Table Cloths, Domestics

A Host of Timely Savings

20x40 Turkish Towels 29c

Slightly imperfect, otherwise they would be 50c each. Some all-white, others with blue borders. Excellent values.

21x40 Turkish Towels 39c

Some are plain weaves; others in athletic weaves. All-white and of very absorbent quality. Slightly imperfect, otherwise they would be 65c each.

Turkish Towels 49c

Slightly imperfect, otherwise they would be 75c each. Heavy-weight, double-thread weave in all-white. Big bargains.

25x44 Turkish Towels 59c

Some small defects in their weave lower their price from \$1.00 to 59c each. Very heavy and large and of absorbent quality.

18x36 Huck Towels 19c

Heavy huck towels in all-white, or with red borders. Sharply undepreciated because of small imperfections, but big bargains just the same.

Fancy Turkish Towels 79c

Unusually good values in these heavy, white Turkish towels with wide colored borders. Some with space for monogram. Size 21x41. Slightly imperfect, otherwise they would be \$1.25 each.

Huck Towels 163c

A splendid hotel towel being of good size and durable weave. In all-white or with red borders. Size 17x32. If perfect would be 25c each.

36-inch Nainsook, piece of 10 yards \$1.95

Fine white nainsook with soft finish for lingerie and dainty baby garments. 10 yards to a piece.

36-inch Longcloth, piece of 10 yards, \$2.39

Heavy quality long cloth with nice Charms finish, for durable, well-wearing undergarments. 10 yards to a piece.

42x36 Pillow Cases; Each 39c

Nicely hemmed pillow cases, well bleached, that will give good service. Real bargains at this price. —First floor, Capwells.

Bleached Cotton Crash 15c

Big value in good-weight cotton crash for toweling. In all-white or with red borders.

Brown Linen Crash 23c

July Sale Price. Heavy perline crash, unbleached. Wears splendidly. Come for this bargain. —First floor, Capwells.

72x72 Pattern Cloths \$2.95

Our price would be \$3.75 each.

58-inch Damask, yd. 59c

A pleasing selection of floral patterns in good quality, well mercerized damask. Priced far below regular.

31x21 Table Napkins \$2.65 doz.

Special for the sales; our regular price would be \$3.75. Heavy mercerized napkins in pretty floral design. —First floor, Capwells.

81x90 Heavy Bleached Sheets \$1.39

These sheets are of strong, serviceable sheeting, well bleached and with neatly hemmed ends. Exceptional value.

64x64 Pattern Cloths \$1.95

Bought regularly, our price would be \$2.50.

These cloths are in attractive floral patterns with borders all around. Of heavy weight damask, highly mercerized.

72x72 Pattern Cloths \$2.95

Our price would be \$3.75 each.

Of heavy damask with lustrous, mercerized finish and with border all around in scroll pattern. Big value for the July Sales.

58-inch Damask, yd. 59c

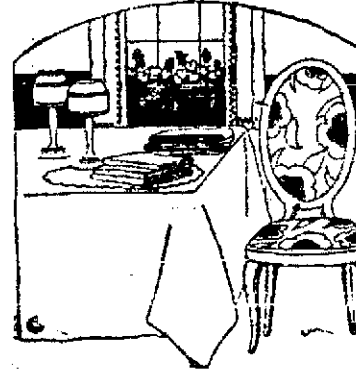

A pleasing selection of floral patterns in good quality, well mercerized damask. Priced far below regular.

31x21 Table Napkins \$2.65 doz.

81x90 Heavy Bleached Sheets \$1.39

These sheets are of strong, serviceable sheeting, well bleached and with neatly hemmed ends. Exceptional value.

SUSPECT LANDED IN BANDIT HUNT IN SONOMA HILLS

Sheriff Boyes Captures Heavily Armed Man; Continues Search for Companion.

SANT ROSA, July 6—The second day of the manhunt in the hills back of Cloverdale resulted in the arrest late Tuesday of Manuel Cuckcr, 25, a Bohemian, and his detention while Sheriff John M. Boyes investigates Cuckcr's suspected connection with the robbery of the station safe of the Northwestern Pacific railroad at Petaluma when \$300 was secured by two cracksmen who then fled in a stolen automobile to Cloverdale.

When arrested by Sheriff Boyes who trailed the man from the abandoned automobile to Hopland, Cuckcr had concealed under his overalls a .45-caliber revolver and a belt filled with cartridges.

He was captured with no resistance.

Following his arrest and his denial that he had participated in the safe robbery, the most during in years in Sonoma county, the posse, which was sweeping the wooded sections of northern Sonoma and Mendocino counties since early Monday, resumed the hunt for the second man.

Sheriff Boyes late Tuesday de-

two, was armed heavily also and he said that the man probably would make a fight if cornered in the hills. The two men, who are now in jail, joined the posse and are scouring the hills.

The robbery occurred early Monday morning, about 6:30 a. m. The men used to smash open the heavy safe.

Railroad police arrived Tuesday afternoon joining the posse at Cloverdale.

County Dry Law Is Held Up by Petition

SAN JOSE, July 6.—The "Santa Clara county Volstead Act," a local prohibition enforcement law passed recently by the board of supervisors and scheduled to go into effect today, was held up by the filing of a referendum petition bearing 4454 signatures asking that the law be referred to the people.

The petition, which was filed only shortly before noon at the office of the county clerk

According to the superintendent, the choice of three courses, as follows:

1. They might repeal the law.
2. They can submit the issue at the regular election in November, 1922.
3. A special referendum election could be called to pass on the law.

Mr. Glavin said that on today what course would finally be taken by the supervisors.

Board Will Refuse Unsigned Letters

BERKELEY, July 6.—At the meeting of the Board of Education last night resolution was adopted providing that "communications and petitions not properly signed" will hereafter not be received. Mrs. Charles Glavin, secretary of the board, explained that the action was requested "not for what has occurred in the past, but to protect the board's future from any unqualified and unjust attacks."

It is believed Mrs. Gibbs is endeavoring to guard against communications that may be sent to the board by the newly organized Taxpayers' Committee, which has announced it intended to check up the various actions of the board. One of the members of the committee is Mrs. J. F. Johnston, 2575 Cedar

AMERICAN ENVOY SAILS.
WASHINGTON, July 6.—Hoffman Phillip, American minister to Colombia, has sailed to return to his post at Bogota, after having been called to the State Department early in the spring to assist in the final discussion which attended the negotiation

WEDNESDAY, JULY 6, 1921.
MR. SHIDEHARA'S EFFORT.
Baron Shidehara, the Japanese ambassador at
Washington, formally utters the assurance that
the proposed renewal of the Anglo-Japanese mili-
tary alliance is not even remotely designed as an
instrument of hostility, or even defense, against
the United States. He holds that any contrary
opinion should be quickly disarmed by the clause
inserted in the agreement at the time of its re-
newal in 1911, providing:

"Should either high contracting party con-
clude a treaty of general arbitration with a third
power, it is agreed that nothing in this agreement
shall entail upon such contracting party an obli-
gation to go to war with the power with whom
such treaty of arbitration is in force."

The Japanese ambassador contends that, inas-
much as the United States and Great Britain
have signed an arbitration treaty, this clause re-
moves all cause of apprehension on the part of
the United States over the proposed renewal of
the Anglo-Japanese military pact. But, as has
previously been pointed out in these columns,
while that clause would seem to offer some as-
surance that Great Britain would not be obli-
gated to go to the aid of Japan in case of a con-
flict between Japan and the United States, it does
not apply at all to a situation in which the
United States and Great Britain may be found
at war. Such assurance as exists is only in half
measure. And over and above all else is the ob-
jection to military alliances in general, especial-
ly between a great European naval power and the
militaristic, expansionist nation on the other side
of the Pacific.

There is another point to Baron Shidehara's
statement worth noting. He says the original
agreement was calculated to localize any war
which might be forced upon either contracting
party in defense of its defined interests or vital
security. And:
"Neither Japan nor Great Britain has ever
contemplated under the alliance any *causae*
foederis prejudicial or inimical to the interest of
the United States; and any plan designed to re-
move the possibility of an armed conflict between
the United States and Great Britain was of
course, agreeable to Japan." This last phrase is
in reference to the Anglo-American arbitration
treaty under discussion at the time of the revival
of the Anglo-Japanese alliance in 1911.

But the Japanese ambassador shows no dispo-
sition here to take into consideration the views
of the United States as to what its own interests
in the Far East may be and what acts by Great
Britain and Japan by this American viewpoint
may be considered a *causae foederis* prejudicial
to the interests of this country. The contract-
ing parties to the alliance already have appeared
in several roles of joint action wholly unsatisfac-
tory and highly prejudicial to the United States.
Perhaps the most conspicuous of these acts
was in February, 1917, when Great Britain and
Japan concluded a secret agreement, although
both governments knew beyond any doubt that
the United States would be their active ally
within a few weeks, for the division between them
of all German territory in the Pacific. This se-
cret agreement was treasonable to the prospec-
tive ally and was designed as an offensive in-
strument to be used at the Paris Peace confer-
ence to prevent German interests in the Pacific
becoming a subject for consultation with the
United States. It was successfully employed.

Of lesser consequence, though equally signifi-
cant, was the joint interference by Great Britain
and Japan to block the conclusion of American-
Chinese agreements for the building of railroads
in Manchuria in 1908 and 1909; the protests in
this year by both governments against the con-
struction by American interests of a wireless
telegraph station at Shanghai; interference with
industrial loans to China in 1915 and 1916; the
wholesale pirating and counterfeiting, with ap-
proval of the Tokyo government, of American
trademarks in Japan, and various other episodes.
Just now the policy and attitude of Japan
which Great Britain, under the military alliance,
may be called upon to defend is almost violently
prejudicial and inimical to American interests.
This is the encroachment of Japan in Asiatic Rus-
sia, by which the entire Russian seaboard in the

Pacific is being brought under Japanese domina-
tion and by which Russia may be cut off from
her natural outlets to the Pacific and from direct
communication with the United States. Japan
has already occupied all of the island of Sagha-
lien. She is in military possession of Vladivos-
tok, the principal Pacific seaport left to Russia
after the seizure of Port Arthur in 1904. She
has occupied Nicolayevsk and taken control of
the mouth of the navigable Amur river. She has
wrung concessions and forcibly assumed prerogatives
that are calculated finally to give her con-
trol of the entire coast line to north Kamchatka
and of the Okhotsk sea.

It is wholly unsafe to leave with a power that
has committed so many deeds of aggression and
executed such a policy of aggrandizing expansion
the definition of American interests in Asia. It
is unsafe to permit Japan and Great Britain to de-
fine what of their joint or respective causes are
prejudicial to American interests.

Ambassador Shidehara has unquestionably
drafted his public statement in accordance with
cabled instructions from Tokyo. He is the voice
of the Japanese government trying to throw off
suspicion and allay apprehension in this country.
But his words are not reassuring. On the con-
trary his omission of essential factors show that
Tokyo has not abandoned its tactics of deception
and confusion. Were it truthful and forthright
it would confess that the United States is the only
power against which the Anglo-Japanese alliance
is aimed, all other threats to the interests of
Japan and Great Britain having been removed.

OF WHAT USE?

When we fail to profit by experience, when we
neglect to store for future guidance the lessons
of disaster, we fail to justify intelligence, the
supreme and exclusive gift to man. At that in-
comparable hour, that fiery climax in the life of
the earth, when man was selected from all the
other creatures to receive this golden reward,
progress became the motive power and the goal
of the human race. When we do not wish to
progress, when we are content to stand still or to
go backward, we no longer deserve intelligence.

Sunday and Monday many lives were given to
fireworks and their results. Grain fields were
turned into smoking, barren wastes; houses were
burned, business plants wrecked. Protection and
conservation is a phase of progress. Year after
year we have gone ahead without learning the
lessons of careless handling of incendiary fire-
works. We have been content to forget the grim
casualty list in a few days. The next Fourth of
July has found us again unprepared, unresolved
and neglectful.

Is it not about time to apply our intelligence
to this question? Shall we ignore next July what
we have learned at such fearful cost this July?

The Vice-President's penchant for directness is
exemplified in an order affecting procedure in the
Senate. That body is somewhat celebrated for its
Alphonse-and-Gaston methods. This is an exam-
ple: "Is there objection to granting unanimous
consent to the request for present consideration
and adoption of the amendment offered by the
Senator from — to the resolution proposed
by the Senator from —? The chair hears
none. The clerk will make the necessary change
in the language affected." The Vice-President has
cut away the verbiage till it stands, "The resolu-
tion will be so modified," thus affecting a com-
mendable saving in time as the matters are under
consideration, and in white paper when the record
comes to be published.

There was a building boom in these parts a
few weeks ago. Please do not let it sink to a
whisper.

OUR "DETERMINED PURPOSE"

Hundreds of maimed soldiers, attending the De-
troit convention of the Disabled American Veterans,
have just heard their president describe the govern-
ment's neglect in words as true as they are blistering.
It took 644 days to win the war, he said; it has taken
1000 days to decide what shall be done for the war's
injured—and we are nowhere yet. He credited the
War Risk Bureau with a decided improvement since
Mr. Forbes took charge, "but they still are thousands
of cases behind"; he alleged that "we have thousands
and thousands of tubercular men in unsuitable quar-
ters"; and he declared that "with the mental cases the
situation is desperate."
These aimless, legless, or sightless soldier-delegates
and the men they represent know as no one else can
the record of bureaucratic inefficiency and indiffer-
ence. The Veterans' Bureau up to March 15 last had
spent \$90,000,000 and with more than 200,000 men eli-
gible for training had turned out—or pretended to
turn out—3123 men with training completed. This
convention knows what it means for men to live in
themselves under such a body. The War Risk Bu-
reau had had more than 600,000 applications for com-
pensation. Those men know what is involved in its
red tape, delays, and callousness. They know just
how defective the hospital care and dispensary care
have been under the Public Health Service. There
are many tubercular patients who would be far bet-
ter off outside the government's protection than in the
quarters the government has given them. The num-
ber of discharges from the army for disability from
neuro-psychiatric diseases was 75,000, and the head-
quarters of the Disabled American Veterans was justified
in saying that many of the discharged are being allowed
to sink from slight mental afflictions into insanity.
Representative Kindred said in Congress the other day
that the whole \$18,500,000 appropriated by Congress
for new hospital facilities could well be spent for the
mental cases.
President Harding telegraphs to the disabled sol-
diers that "it will be the determined purpose of the
government to insure the fullest measure" of relief
and protection. The first step to be taken is passage
of the Secret bill for coordinating the government's
activities in behalf of service men. It has gone
through the House, and friends of the soldiers expect
the Senate to give prompt approval. It will bring the
functions of the War Risk Bureau, Vocational Board,
and Public Health Service for veterans under one au-
thority, a new Veterans' Bureau in the Treasury De-
partment. In some respects the bill can be im-
proved; in its embodiment of the two great prin-
ciples of coordination and decentralization it is ex-
cellent. It is the indispensable foundation for a work
of justice too long delayed.—New York Evening Post.

NOTES and COMMENT

Fireworks are taboo by many mun-
icipal ordinances, but it is seen
that the National State law
that will prohibit them in march-
ing will come nearer safeguarding
lives and property than any other
method. But do the people want
safeguards to that extent? Some of
the protests against interfering with
the joy of the kids may cast a doubt
as to that.

A series of ring events in the wake
of the big one that was pulled off
Saturday night, as proposed, disclose
that the American people are not so
intensely interested as the \$1,600,000
gate would seem to indicate. There
were features of that contest that
would be absent from a succeeding
one. Interest seemed not to be so
much in the pugilist per se as in the
personal ambitions and the incidental
conditions.

That Taft did not curl up and re-
tire when he was decisively beaten
and indifferently used by the Ameri-
can people, but "stuck around" and
continued to serve in such a way as to
make his elevation to the Chief Jus-
ticeship a very popular performance;
and that Charles E. Hughes did not
let his defeat sour him, nor General
Wood his disappointment drive him
from important service, all testify to
the steadfastness of one phase of the
American character. There is a
phase, however, that shrivels when
personal ambitions are thwarted.

Now that war has been declared
at an end the matter of getting the
American soldiers off the Rhine
comes next. It would appear that
the presence of American soldiers on a
war footing in a country with
which we are at peace is not reason-
able. But this withdrawal may not
be so easy. Congress is already dis-
cussing with a lot of unanimity
it is, indeed, sometimes a consider-
able matter to withdraw gracefully
even from an untenable situation.

All the fires that occurred around
the Fourth were probably not due to
firecrackers. The burning of grain
fields serves to remind that the
camper was abroad in increased
force. And the careless person is
always abroad. It is a good illustration
of the tendency to attribute all
untoward happenings of a class to
one cause when that cause is under
the ban. However, this is not to vi-
vificate the firecracker.

A good deal has been said about
"the neck of the bottle" in connection
with a bridge. It is not
with a purpose to deride, but
with a desire to elucidate, that at-
tention is called to the logic of it—that
Oakland, then, must be the bottle.

Ambassador Harvey has again
talked, and it is to be said that his
utterances were friendly to the
country to which he is assigned, at
the same time that they were thor-
oughly American. He pointed out the
trait of being frank without neces-
sarily being overt. After he gets set-
tled in his environment it is not at
all unlikely that he will say many
things that really ought to be said,
and without damage.

Senator Walsh at least is satisfied
He acknowledges that the inundating
note by which the Democrats were
swept from power must be that the
American people are not hospitable
to the League of Nations idea, and
declares that his party should realize
that fact and turn its attention to
something else. The implacables
have impressive advice in this.

If it is true, and not a joke, that
furs have been added to bathers' out-
lets, a deplorable fashion in
fashion's vagaries that was not ex-
pected. Though as to that, it was
not supposed at one time that furs
would be kept on duty through sum-
mers, in a regular way. It illustrates
how fashions evolve.

It appears that the New York wet
parade was not an unalloyed success.
"What's the use," seemed to be the
sentiment. Besides, it was awfully
hot, and it was easier to refer to the
resolutions and endorse them than to
walk a hot pavement, with no oasis
at the end.

SPIRIT OF THE STATE PRESS

After a conference with President
Harding, Attorney-General Daugherty
has announced that he will form
a new bureau in the Department of
Justice charged with the specific
duty of bringing war profiteers to
punishment. Investigations have dis-
closed such huge frauds upon the
government that the Attorney-Gen-
eral believes a special force of skilled
attorneys should be assigned to the
cases.—Stockton Independent.

The owner of one large business
building in Watsonville estimates his
loss from having firecrackers thrown
onto his awnings as \$50 a year. Last
year the carelessness of those firing
off the explosives resulted not only in
property loss but physical injuries.—
Watsonville Register.

Local bootlegged hootch has
changed its tactics. Wasn't long ago
when its effect almost killed the
drinker. Now the effect is that the
drinker tries to kill someone else.—
Martinez Gazette.

Mexico is figuring on forming all
its generals into one big army and
then letting the rest of the army be
in command.—Hanford Sentinel.

The San Labor outfit's wage de-
cision seems to be better than first
supposed. Both railroad executives
and workers are dissatisfied with it.
—San Bernardino Sun.

Now that they're going to publish
a list of profiteers, we predict an-
other paper shortage.—Modesto News.

Women worry about having nothing
to wear; reformers about their
wearing it.—Stockton Record.

"Babe" Ruth has made another
home run. So has Admiral Sims—

THE FORUM

The Editor of THE TRIBUNE declines to
publishing for opinions and statements
expressed in this column. Brief contributions
on current topics of general interest are wel-
comed. The editor, as a rule, he reserves the
right to select, to edit, and to condense the
material, which, if desired, will be withheld
from publication.

THE LEONA HEIGHTS FIRE.

To the Editor of The Tribune:

The manner in which the grass
fire at Leona Heights Sunday was
handled by city firemen should be
subject for severe criticism and in
one particular instance a reprimand
should be given those immediately
responsible.

The fire started in the grass along
the street car track of the "Tunnel
ville" or "dinky" line, presumably
from a cigarette butt carelessly
thrown from the car by a passenger.
This was in front of the Herford
place, which was saved after a
valiant fight, the fire passing on up
the hill. When the fire department
arrived it went on out to the Bates
& Borland rock quarry. There was
little danger from that fire at that
point, the powder having been re-
moved to a place of safety and the
quarry buildings sitting well out in
the open. Had a few men been
sent above the fire at this point and
started a backfire the flames would
have gone no further. But instead
the firemen started a fire in the tall
dry grass on the opposite or south-
east side of the quarry, right in the
teeth of a high wind blowing from
the northwest. Just why this was
done it would be difficult to guess
and it caused all the damage that
was done by Sunday's fire and too
severe a censure could scarcely be
given, for there was not the slightest
excuse or reason to start a fire at
this point. The main fire was on
the other side of the quarry, with
little chance of getting by the
quarry buildings and into the
houses. At least one man, whose
home lay directly in the path of the
flames and who quickly realized the
danger to every one living in that
direction. Driven by a gale, the fire
raced toward the state rifle range,
sweeping everything before it. Two
men, seeing his protests, were
ordered to start on the run for his
home, a quarter of a mile distant,
and reached there just as the flames
did, and, shouting to his wife to
grab their baby and run, he began
throwing what little water was avail-
able on the house. Fortunately the
grass was not thick around the lit-
tle grove of trees in which the house
stood and the fire burned around it,
sweeping up the hill like a cyclone.

A man living in a tent on the
hillside saw the fire coming and
hastily started a backfire and then
ran a quarter of a mile to safety.
His tent was spared, the flames pass-
ing around and on to another camp-
site, where a well was being dug
and a pretty little oak flat. Lumber
and other material intended for the
erection of a camp, together with
well frame, windlass, ropes, wheel-
barrow, etc., were consumed by the
flames.

This tract of land has long been
a favorite picnic ground for lunch
parties and hikers and was one of
the beauty spots on the outskirts of
Oakland. In perhaps ten minutes
the landscape had been transformed
into a blackened and charred mass.
Beautiful stately oaks that had stood
for generations were ravished and
killed. This tract is only partially
sold and the uninviting and desolate
aspect now presented would form a
basis of something more than a protest
by the Realty Syndicate Com-
pany, the owners, the beautiful
growth of shrubbery and trees being
its greatest asset.

The state rifle range was next in
the path of the fire and all the build-
ings but one were burned, the flames
leaping several hundred yards across
the road to a little home, quickly

burning it to the ground, the owner
being absent.

And all this because of lack of
judgment or stupidity on the part
of the firemen, who seemed to con-
sider their duty done after starting
this disastrous fire and repaired to
a nearby refreshment stand and pro-
ceeded to revel in soda pop, al-
though, it is said, they were urged
to hasten to the rifle range, where
an adequate water supply is said to
be available, which might have made
it possible to have saved the build-
ings there.

In detail of firemen, later
in the day, who were fighting the
fire that spread along the high ridge
to the north of where the original
fire started, using wet sacks, finally
came down the hill, exhausted and
discouraged, giving up the fight
against impossible odds. Fighting a
grass and brush fire on a hillside
with sacks! A neighbor who had
had experience with forest fires
quickly comprehended the situation
at this point and by intelligent work
with the help of two other neigh-
bors had the fire under control in
about twenty minutes, although the
discouraged firemen protested it
would require twenty men to do so.

During the night this fire started
up again and four firemen respond-
ed. They had no idea what to do
and stood around helpless, refus-
ing to allow any one to do any-
thing and finally telephoning for the
"chief." These men were from a
suburban station and the "chief,"
some sort of strawboss, when he
eventually arrived, armed with high-
top rubber boots and a big search-
light (although there was no water,
but plenty of light), he asked his
men what was the best thing to do,
apparently feeling as helpless as
they. A backfire was decided upon
and started about fifteen feet above
a road which was a natural fire trail,
and immediately after lighting the
grass they would start beating it
frantically with sacks, the "chief,"

the while, dancing up and down the
road like a Hotentot, shouting hysteri-
cally at his men. "Set it afire!"
"Beat it out, beat it out, beat it
out!" Water was carried by helpers
a long distance to wet the sacks,
and the sack-wielders beat the fire
until they became exhausted, urged
on by their yelling "chief." This
continued until toward 3 o'clock in
the morning.

Had the backfire been started at
the road, taken along same about
fifty yards and then up a ravine to
an old mine dump, this fire could
have been controlled inside of fifteen
minutes, instead of five hours, and
without the use of sacks, water or
a yelling "chief." This move was
suggested to the "chief," but he
scorned it, with the remark that the
sparks might get across the road,
not knowing, apparently, that dry
grass will not catch fire at night
from sparks.

These men, while they may un-
derstand fighting a burning building,
are woefully ignorant of how to
handle a grass or brush fire, the
methods for combating which are
the same as employed in fighting
forest fires—by fire trails and back-
fires. They attempted to backfire
without first making a fire trail, the
result being, of course, that the fire
spread quickly in all directions and
soon getting beyond control and
further complicating matters.

Now would it not be a wise thing
to do to secure the aid of a forest
ranger or fire guard and have the
city firemen instructed in the hand-
ling of grass and brush fires intel-
ligently? And would it not also
be wise, in case of such instruction,

Music Is Stimulus, Is Claim of Convention Speaker

HUMAN SOULS STIRRED BY LIVELY ARTS

Convention of Teachers' Association Opens by Talk by U. C. Educator; Delegates Given Welcome to the City

Keener interest in music as an influence on the behavior of human beings was urged before the opening session of the eleventh annual convention of the Music Teachers' Association of California this morning.

Music, according to the speaker, is the best stimulus that can be applied to human beings and plays an important part in the development of "physical" tone, having an important role to play among individuals, groups and in public affairs.

DELEGATES WELCOMED.
Mrs. Sofia Neustadt, president of the Alameda county auxiliary, which is hostess to the state convention in Ebell clubhouse, Louis B. Avery, assistant superintendent of Oakland schools, Harold Weber, representing Mayor John L. Davis, and Dr. Brietweiser of the University of California, formally welcomed the delegates.

Never point out difficulties to the student. Make his work simple and progressive.
Keep "beauty" before the student. If beauty of tone is not stressed, the violin, above all, becomes an instrument of torture.

Examinations in violin for membership were designated as "strenuous" by Mrs. C. G. Stever, who introduced that phase of the discussion. Orley See urged a closer attention to technique. Speakers brought out the point that vocal students gained a better tone from the study of the violin.

COMMUNITY MUSIC.
"Community Music in Its Broader Aspect" was discussed this afternoon by Alexander T. Stewart. Miss Marie Withrow, San Francisco, and Lawrence Strauss, Berkeley, were the principal speakers in the vocal round table discussion, led by Mrs. Ada Jordan Gray of Oroville this afternoon.

NEED OF CITIES.
"The Eastbay cities need a big musical organization which meets in the evening and to which men are welcome," Mrs. Neustadt declared. She outlined how the organization of which she is president was endeavoring to meet that need.

ADVICE TO PARENTS.
Musical atmosphere in the east tends to conservatism, according to de Grassi. Admitting a wider scope for art, he declared in opening the forum that "six months in the east has taught me to appreciate California, and everyone should have that experience."

Two or three years' study of the piano before taking up the violin was urged by de Grassi upon parents who contemplate musical education for their child.

Among the conclusions reached in the discussion were:
If a child is puny at 6, its musical study should be deferred. If

Leaders of the Music Teachers' Association of California which opened its eleventh annual convention in Ebell clubhouse this morning. robust, it should be given instruction.

Concert Sequel to Greeting To Music Teachers of State

ROY HARRISON DAVENPORT

One would expect a music teachers' convention program to be more or less musical; that the teachers would not be so much the pedagogues that they forgot also to be artists. And so the program builders of the Music Teachers' Association of California convention seem to have planned. Last evening's brilliant reception served as a prelude to a pleasing concert in which two singers participated and a pianist and their offerings were of uniform enjoyment.

Both reception and concert took place in the ballroom of the Hotel Oakland. The officers and directors of the Alameda County and San Francisco Music Teachers' Association, members of the program committee and others were in the receiving party. Some two hundred delegates and guests attended. The artists of the succeeding concert were Mrs. Irene E. Nicoll, contralto, accompanied by Mabel Sherburne West; Miss Helen Heath, soprano, assisted at the piano by Mrs. Paul Jarboe, and Lincoln S. Batchelder, pianist.

Mrs. Nicoll sang four songs. Her voice is richly colored, sonorous, amply powerful. In fact, it is so substantial a voice that it immediately reduced to nothing the pre-

viously rather ominous spaces of the ballroom. "Eli, Eli," manifestly made for contraltos and basses, was Mrs. Nicoll's finest number, and she richly endowed it with the emotional warmth which it demands.

Batchelder's playing was particularly pleasing to the audience, which was even enthusiastic toward him. His playing of a Brahms rhapsody and the Chopin polonaise were of much worth. Particularly in the latter did he handle the pompous octave passages with accuracy and celerity.

Miss Heath's singing was of her usual winsome manner. "Les Cloches" of Debussy furnished her particularly apt opportunity for delicate melodic delineation and a recent piece by Harriette Ware, "Joy of the Morning," also was gracefully given.

The musical crest of the convention will be reached after the banquet of Friday evening when "The Picture Bride," an opera for which Marion Cummings wrote the libretto and Mrs. Josephine Crew Aylin the music, will be sung under Paul Steindorff's direction at the Ebell Club. The participants, members of the Alameda County Association, are to be Mrs. Reginald Mackay, Miss Magnolia Haws, Miss Alice McConn and Nelson C. McGee.

GIRLS GIVE POLICE AND JUDGE SLIP

Party Arrested for "Celebration" of Fourth Disappeared Under Noses of Berkeley Officials: S. O. S. Call Out

BERKELEY, July 6.—Police here are searching today for thirteen of the fourteen young men and women who were arrested in Police Judge Robert Edgar's court yesterday morning charged with disturbing the peace, following a "too ardent" and boisterous Fourth of July celebration which resulted in a row in a local cafe.

The fourteen alleged offenders, after having been temporarily released by the police on bail of \$10 each, appeared before Judge Edgar in court yesterday morning. The court increased their bail from \$10 to \$50, and continued the case upon the request of Myron Harris, their attorney, who demanded separate trials.

After the court's action the young men and women strolled from the court room and disappeared. Later it was discovered that they were missing and their new bail of \$50 had not been deposited with the clerk.

An all-out search last night by the police department failed to reveal any trace of the fugitives, and resulted in requests being sent out by the police today to the authorities of other bay cities to be on the lookout for the celebrants. One of the party, Bob Haynes, who gave his address as the Hotel Oakland, was retained in custody and is still being held.

Throughout the day police and detectives conducted a search for the remaining members of the party who so calmly walked from the courtroom in the presence of the judge and policeman.

Following are the names and addresses given by members of the crowd upon their arrest:

B. A. Hornage of the Hamman Baths, Oakland; Mrs. B. L. Hornage, 1820 Bush street, Oakland; Miss C. A. Bernant, 4107 Adeline street, Oakland; Miss L. A. Laraway, Hotel Central, Berkeley; Arthur Allen, 2111 Webster street, Oakland; Frank L. Thompson, Hotel St. Mark, Oakland; Miss Elizabeth Hansen and Miss Mae La Rue, Hotel Central, Berkeley; Charles Dyer, Jr., Hotel Harrison, Oakland; L. A. Callahan and Mrs. D. A. Callahan, 84 Pond street, San Francisco, and Henry Villa, Hotel Central, Berkeley.

Diplomatic Booze Protest Overruled

WASHINGTON, July 6.—Despite diplomatic protest, Attorney-General Hughes has upheld the ruling of his predecessors that alcoholic liquors cannot be transported across territory of the United States in transit from one foreign country to another.

The opinion was sent to the customs division of the treasury today, and a conference of customs officials was held to determine methods of enforcing it.

Repeated against this interpretation of the prohibition law were filed some months ago by the British embassy in behalf of Canadian citizens and by the Italian embassy after Attorney-General Palmer had rendered an opinion on February 4 that such transit of liquor was unlawful.

Berkeley Police Search For Miss Anna G. Murray

BERKELEY, July 6.—Miss Anna Grover Murray, former caterer and Pacific Coast representative of an eastern hotel school, is today the object of a state-wide police search, following her disappearance from the Hotel Whitecroft, leaving an unpaid bill of \$25.82. A warrant charging Miss Murray with deserting an innkeeper was issued and withdrawn yesterday on the promise from Harry Parrish, manager of the hotel, that he would swear to another warrant.

In payment of the unpaid bill of \$25.82, Miss Murray is said to have left an old trunk containing a few warm articles of clothing and some furniture, valued, according to Parrish, at a little more than \$25. Miss Murray disappeared about a week ago.

IN POLICE COURT
Miss Murray has been occupying the center of attention in Berkeley for the past six months. On January 27 she started the fashionable District of Thousand Oaks and North Berkeley, by attacking Mrs. Lucy MacGregor, Arlington and San Rafael actresses, during a dispute over an amount charged by her for entering. After she had threatened the life of Mrs. MacGregor, a complaint was sworn to by Mrs. MacGregor charging Miss Murray with battery.

When she appeared before Police Judge Robert Edgar, Miss Murray was found guilty of the charge and fined \$5. She denied at the time that she had attacked Mrs. MacGregor with her fists.

On May Day, May 1, Miss Murray again entered the limelight when she issued several hundred invitations to a May Day breakfast at the Hotel Fairmont to the exclusive society people on both sides of the bay. On the invitations was engraved, "Directed by Miss Anna Grover Murray. Helen Adler, Jane Jones and Mandana Parsons. Miss Adler is prominent in society in San Francisco while Miss Jones and Miss Parsons are socially prominent in the Eastbay."

POLICE MAKE SEARCH.
For the past month Miss Murray has been distributing literature up and down the coast concerning the Lewis Hotel Training school in Washington, D. C., for which she was the Pacific Coast representative. She is named Pacific Coast representative in the pamphlets while Clifford Lewis is named president and Mrs. Katherine Mary Lewis, vice-president.

The Berkeley police today took up the search for the missing woman. Belief that she had fled the state was expressed by them because, it was pointed out, she has had ample time to go into seclusion in some adjoining state. The San Francisco and Oakland police will be asked to assist in the search as well as the authorities of both northern and southern California.

Information on Berkeley Taxes Is Sought by Widow

Property assessments and a query as to the possibility of deporting prohibitionists were among the questions that came in to THE TRIBUNE Information Bureau today.

One of today's queries which came from Richmond:

"A widow owes two taxes in Berkeley. She has paid her taxes and now receives an assessment of \$77 to be paid in 30 days. What is it for?"

"May be you paid city taxes and the bill is for county or for street or sidewalk improvements. Better write or call at assessor's office to find out definitely."

Here is another query that has come in:

"Can a Jew purchase wine while others cannot?"

"No. Only a rabbi, for communion purposes."

Another query demands:

"Could a law be enacted which would deport all prohibitionists and booze fighters and have the same Americans run their own business? Where could we dump them?"

Under the constitution it is impossible to deport any American citizen. It is not likely that a general national amendment along that line could be passed.

The TRIBUNE Information Bureau will answer all questions of a general nature except school and problems dealing with trade and firm names and queries as to the time of day.

The Bureau is open every day except Sunday from 9 a. m. to 5 p. m. If answers are desired by mail, stamps must be enclosed. Quick results can be obtained by telephoning to the Bureau. If you have any problems of a general nature to solve, ask THE TRIBUNE Information Bureau, Lakeside 6000.

Oakdale Warehouse Burns; Loss \$15,000

SPECIAL TO THE OAKLAND TRIBUNE.
STOCKTON, July 6.—A large warehouse filled with agricultural implements at Oakdale was completely destroyed by fire last night, according to advices received here.

The fire is thought to be of incendiary origin, possibly having been set by the same band of arsonists thought to be implicated in other fires in the Valley, especially at Lodi.

The value of the warehouse alone is more than \$15,000, and was partially covered by insurance. The warehouse was the property of A. L. Gilbert and F. B. Patton.

Additional loss of several thousand dollars was caused by the destruction of the agricultural implements in the warehouse which were awaiting delivery to local farmers from eastern manufacturers.

Men who first arrived at the scene of the fire to fight the flames say they noticed an odor of kerosene

BABY DUCKS ENJOY THEIR FIRST SWIM

Twenty-five Mallards Just Out of Shells. Are Named and Turned Loose in Fountain On Shores of Lake Merritt

Oakland's wild duck babies received their baptism today. Twenty-five mallards, only a few weeks out of their shells, were each given names and tossed into the McElroy fountain at Lakeside park to enjoy their first swim.

A dozen youngsters were sponsored for the ducklings. And while the children shouted and capered, and the mamma mallards quacked in consternation, motion picture cameras clicked and the ducklings went sailing and diving.

For a hot day, it was voted the coolest stunt in Oakland.

The affair was arranged by the publicity bureau of the Oakland Chamber of Commerce in order that a permanent pictorial record of the ducklings be obtained, and also to spread the fame of the "fame wild ducks" of Lake Merritt. In addition to the movies, still photographs were taken, which will be supplied to newspapers and magazines and placed in the files of the Chamber of Commerce.

The ceremony took place at 10 o'clock this morning. Albert Thomas, "chief" for the wild ducks, was master of ceremonies. He escorted the ducklings and their mothers to the fountain and introduced the feathered youngsters to the human youngsters.

Each child was allowed to choose whatever name it desired for his or her duckling, and at a word each fluffy mallard was christened and turned loose in the fountain.

TYPEWRITER IS STOLEN
When W. F. Neary left his office for lunch today he locked the door. When he returned he found his typewriter missing. He had a note on his desk which read "Will be back in an hour."

Neary returned to the office and found that during his absence some one had stolen his typewriter. His office is at 1611 Telegraph avenue.

France has 10,000,000 horsepower of undeveloped water power.

Resistance!

The fumes from gas radiators destroy the oxygen in the air, causing disease of the respiratory organs, thus lowering vitality and weakening the resistance powers against the onslaught of disease and contagion. The stimulating and soothing warmth generated from hot water or steam, and sent forth from the conveniently installed radiator sets in circulation the normal air, untainted by poisonous gases, conserving the health of old and young, and speaks convincingly to the discerning and thoughtful. Consult freely with a Heating Contractor for your needs.

S. F. TO HOIST OLD FLAG AGAIN NEXT SATURDAY

SAN FRANCISCO, July 6.—To celebrate the seventy-fifth anniversary of the hoisting of the American flag, which changed a Mexican village into what was going to be one of the greatest of American cities, the same flag will be raised again on July 9 at Portsmouth Square.

Former Senator James D. Phelan will be the speaker of the day and Major-General George Barnett will also deliver a short address.

The parade that will be held preceding the exercises will start at 2:30.

It takes an electric motor twenty minutes to wind London's "Big Ben."

FIFTEEN GIRLS SELECTED FOR SCREEN CONTEST

Tryouts in Cody Competition to Be Made Tomorrow At T. & D. Theater.

Fifteen girls, instead of six, as was first intended, were picked today by Lew Cody and committee as the winners in the semi-finals in the CODY PERSONALITY CONTEST.

For more than three hours Cody

Here Are Six of Eastbay's Loveliest

Six representative types of the 550 photographs submitted and of the fifteen girls selected by Lew Cody as the fifteen girls with the greatest personality and charm. The girls are not the winners but just six representative types out of the lucky fifteen. LEW CODY, debonair idol of the screen, is shown in the center. Screen tests will be made of the fifteen tomorrow at 11:30 o'clock in front of the T. & D. theater. Upper, left to right, MONICA GOOCH, ERMA HEAL and PHYLLIS McINTOSH; lower, left to right, PEARL R. JENNINGS, GRACE COLLIE and FAY LAMPHIER.

Don't Delay Your Ideal Man

Despite the fact that the personality contest is practically ended, the IDEAL MAN contest with Lew Cody, celebrated motion picture actor and matinee idol, is still in progress. Tell THE TRIBUNE what your idea of an Ideal Man is. Describe the traits you believe an Ideal Man should possess and mail them to the Lew Cody Contest Editor, care of THE TRIBUNE.

All descriptions must be fifty words or less and any woman reader of THE TRIBUNE in the Eastbay can qualify. Send your descriptions in today. First prize will be \$25, and the remaining fifteen prizes will comprise annual, semi-annual and quarterly passes to the Oakland T. & D. theater.

No description submitted after 6 o'clock Friday evening will be judged. Send them in today—don't delay. The winner of the \$25 cash prize and also winners of the consolation prizes will be announced Saturday night from the T. & D. stage by Lew Cody. You might be the winner—mail your ideas on the Ideal Man to THE TRIBUNE now.

OAKLAND WOMAN, WIFE OF DENTIST, ISS. F. SUICIDE

Mrs. Edwina Perkins of 5679 Miles Avenue, Is Found Dead by Sister.

SAN FRANCISCO, July 6.—During the absence of her sister on a Fourth of July holiday, Mrs. Edwina Perkins, wife of Dr. Philip Perkins, a dentist, committed suicide at 309 Waller street. Mrs. Perkins, whose home was at 5679 Miles avenue, Oakland, was found dead last night by her sister, Mrs. Della Sondheim, on her return from a vacation at Pacific Grove.

An investigation made by Deputy Coroner M. J. Brown disclosed that Mrs. Perkins had attempted to commit suicide in Oakland last year. She had been separated from her husband about a year, the coroner learned. Dr. Perkins has offices in the Lincoln Building in this city.

ADVERTISING IS BIGGEST FACTOR

DES MOINES, Ia., July 6.—Advertising is the most important factor in modern business, Dr. John J. Tigert, United States commissioner of education, declared in an address before the Des Moines Advertising Club here at noon today.

Important as are the factors of labor, raw material, production, marketing and organization, none of them, he said, are as significant today as advertising.

"Advertising is selling" through publicity," Dr. Tigert said. "These include, of course, creating a desire, stimulating good will and maintaining custom. In 1911 a summary was made of the relative amounts of money expended in different media of advertising. At that time the total amount spent for advertising in this country was \$300,000. Since that time the amounts expended have increased by leaps and bounds. The amount expended today for advertising would quite easily go over two billion dollars."

"In 1911 the newspaper was the greatest medium of advertising, and it still stands as such. It is the only medium that can be used for immediate effect. The magazine, however, has its advantages."

Advertising and salesmanship are carried on most effectively. The two are planned in conjunction, and yet advertising is the more important factor of the two.

The girl, also known as Miss Alyse Darcy, is described by Heathorn as being about 5 feet 5 inches in height, 150 pounds in weight and dark hair and fair complexion. She is twenty-one years old and had been in his employ for several years, Heathorn declared.

The world's smallest complete theater is at Ypsilanti, Michigan. It seats 50 persons.

Sonoma City School Bond Issue Carries

SONOMA, July 6.—The bond issue for the proposed Sonoma high school carried yesterday by almost a 3 to 1 vote. The issue is for \$115,000 at forty years and it is proposed to build the finest high school building in Sonoma county.

Toll rates through the Panama Canal approximate \$1000 per hour.

Thousands Are Nervous Wrecks

Cross, Crabbed and Care-worn

From Weak, Thin Watery Blood

without ever suspecting the real cause of their trouble — Iron starvation.

A New York Physician says that MORE THAN ONE HALF THE POPULATION OF AMERICA PERISHES BEFORE MIDDLE AGE and that one of the chief contributory causes of this terrible waste of human life is the devastating weakness brought on by lack of iron in the blood.

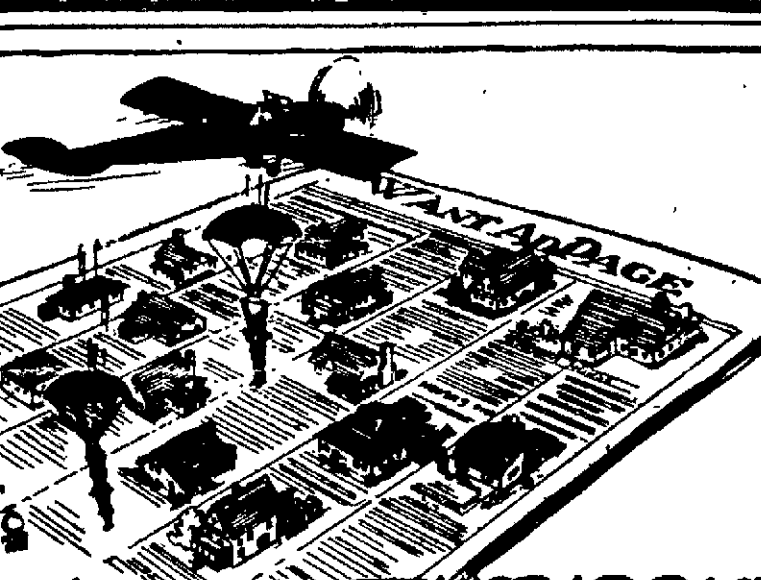

THERE ARE 30,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

An enormous number of people who ought to be strong, vigorous and in the prime of life are constantly complaining of weak nerves, headaches, pains across the back, disturbed digestion, shortness of breath, a general "run-down" condition, melancholy, bad memory, etc., when the real cause of all their suffering is IRON STARVATION OF THE BLOOD.

The proof of this is shown by the fact that when organic iron is supplied to the system, all their multitude of symptoms often quickly disappear and the very men and women who were formerly so complaining now become strong, healthy and vigorous, with even dispositions and sunny, cheerful natures. Nature put plenty of iron in the backs of the grains and the skins and seeds of vegetables and fruits to enrich your blood, but modern methods of cooking remove all these things away—destroying the iron in the process. In recent years, in anemia—iron starvation of the blood, with all its attendant ills. If you are not willing to go back to nature, then you should eat more such iron-containing vegetables as spinach and carrots and red meats by taking a little organic iron from time to time. But be sure the iron you take is organic iron and not metallic iron which people usually take. Metallic iron is iron just as it comes from the action of iron acids on small pieces of iron and is therefore an entirely different thing from organic iron. Organic iron is like the iron in your blood and like the iron in spinach, lentils and apples. It may be had from your druggist under the name of Nuxated Iron.

Nuxated Iron represents organic iron in such a highly condensed form that one dose of it is estimated to be approximately equivalent to one-half ounce of iron ore, or one-half quart of spinach or one quart of green vegetables or half a dozen apples. It's like taking extract of liver instead of eating pounds of meat. Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood and revitalize your worn-out, exhausted nerves. Your money will be refunded by the manufacturer if you do not obtain satisfactory results. Beware of substitutes. Always insist on having genuine Nuxated Iron. Nuxated Iron is for the blood. It is on every tablet. At all druggists in tablet form only.

NUXATED IRON ENRICHES THE BLOOD - GIVES YOU NEW STRENGTH AND ENERGY

labored over the 550 photographs submitted to the PERSONALITY CONTEST Editor of THE TRIBUNE, making every effort to pick the six contestants who were to have screen tests made before the motion picture camera. The contest brought out the most beautiful types of girl that Oakland possesses, all having magnetic PERSONALITY and CHARM, two essentials absolutely necessary for a girl in acting before the motion picture camera.

It was therefore decided by Cody and committee to choose fifteen of the girls, instead of the six, and to

have the test made of all these and then pick the winner from the screen tests. The above pictures of six entries and winners in the first fifteen places are not the final winners but merely six of the lucky fifteen.

NAMES OF CANDIDATES.

The following are the girls selected as the fifteen girls in Oakland with the greatest PERSONALITY, BEAUTY and CHARM.

Phyllis M. McIntosh, 2999 Russell street, Berkeley; Pearl R. Jennings, 784 Eighth street, Oakland; Fay Lamphier, 2208 Eighth avenue, Oakland; Monica Gooch, 1255 Hearst avenue, Berkeley; Grace Collie, 634 Eighteenth street, Oakland; Sally Kirk, Euclid Apartments, Euclid and Hearst avenues, Berkeley; Kathryn Miller, 351 Orange street, Oakland; Grace Lee, 533 Thirty-fourth street, Oakland; Mildred Flory, 1021 Thirty-third avenue, Oakland; Babe Ostrow, 1119 Dartmouth street, Albany; Florence Hauck, 620 Fourth street, Oakland; Helen Wehrle, 5525 Boyl avenue, Oakland; Natalie Paulsen, 610 Thirtieth street, Oakland; Lenora Berg, 1303 Channing way, Berkeley, and Erma Heal, 437 Perkins street, Oakland.

ONCE UPON A TIME THERE WERE NO DOCTORS!

The Doctor Was Not Much Needed Until Folks began to Break Nature's Laws.

Doctors Prescribe Prevention Is Better Than Cure.

Ninety per cent of all disease is preventable, so doctors say. Eat simple food, exercise wisely, sleep sufficiently, and—what is vitally important—make sure of the daily regular, thorough elimination of body waste, and the chances are nine to one that you will keep well, work efficiently and enjoy life. Bowel elimination of food and tissue waste is all-important. But in case of irregularity, disordered or imperfect action do not make the common mistake of taking harsh, violently acting medicines, with the idea of forcing the bowels to act. Nature believes in mild methods. She responds best to persuasion.

So in selecting a simple remedy to regulate and assure proper bowel action, you should not use harsh or violently acting remedies, no matter how much has been claimed for them. You should choose some well-known, time tested, trial proven remedy, that has made its reputation by being used for many years, by all sorts of people, all over the world. Take Beecham's Pills for example. Beecham's is a household word, has been for many generations. Beecham's Pills is a household remedy, has been for over half a century. People not only take Beecham's but recommend Beecham's to their friends. Their use is handed down from father to son or from mother to daughter, from one generation to another. Did you ever hear any complaint or criticism of Beecham's? Isn't that a pretty powerful endorsement of their worth? Druggists are glad to sell Beecham's.

FOR CONSTIPATION BEECHAM'S PILLS

from that test the final winner will be chosen and announced in an afternoon edition tomorrow in THE TRIBUNE. The public is invited to see these tests made tomorrow in front of the T. & D. theater.

After the screen tests are made Cody and the committee will again confer on the merits of each girl. All of the elements entering into the making of a screen actress will be considered, which girl possesses the most screen personality, and will see photograph as well before the exciting eye of the motion picture camera as she does before the still camera, and are there any flaws in the final tests as depicted on the silver screen, are only a few of the questions which will confront the committee when each girl is seen on the screen.

Do you wear Artificial Teeth?

If so, it will pay you to investigate this invention of Dr. Schafritz's. It has saved the teeth of many in Oakland and made good. Here are the advantages:

Does not run over the entire roof of the mouth; has three suction instead of one; Improves speech and taste, cools the mouth. This plate prevents a flat hard mouth to fit in years to come, such as you will have with a cheap inferior old style plate. Look to your future. Don't pick the cheapest plate you can find. It doesn't pay. It is neither cheap or expensive. All kinds of plates made, but nothing less than \$20. You will wear my teeth for years. It makes no difference if you have any teeth of your own or not.

This is the invention of J. B. Schafritz, D. D. S., Bacon Building, 12th and Washington, 2d floor, Room 277. Hours from 9 to 5:30. Closed Sundays. Tel. Lakeside 24. Dated the 15th day of May, 1927.

News of the Churches

Adventists to Convene

Beginning tomorrow and continuing until July 17, the California Conference of the Seventh-day Adventists will hold its annual camp meeting and convention in Oakland. A tent city, said to be one of the largest ever pitched in northern California, has been erected at Fruitvale avenue and East Sixteenth street. During the convention at least 2,000 persons will live on these grounds. The principal session will be held in a huge pavilion built to accommodate 3,000 persons. The various departments will meet in smaller pavilions.

At least a dozen meetings will be held every day. The camp meeting will be conducted after the manner of a Chautauqua except that no address will be charged. The entire camp will be in charge of Elder G. W. Wells, president of the California conference.

This gathering will precede the quadrennial session of the General or World Conference, to be held May 10 to 31, 1928, in San Francisco. At that session it is expected that about 10,000 delegates will be present, to whom the California conference will act as host.

An outstanding feature of this year's encampment will be the medical dispensary operated by the medical staff of the St. Helena sanitarium. There will be special tents and trained nurses. Health lectures and talks on the treatment of disease will be given by specialists.

School of Missions

Arrangements are going forward at a rapid rate for the Mount Hermon Federated School of Missions, to be held at Mount Hermon, California, beginning Saturday, July 9, it was stated today.

Next Sunday's program will include sermons in the forenoon and evening by Rev. H. H. Guy, who spent a number of years in Japan. On Monday morning Dr. Guy will also conduct Bible study.

Miss Frances Bates Patterson of Chicago will conduct the morning textbook study periods daily and Dr. John Snape, pastor of the First Baptist church of Oakland, will lecture on Monday evening, July 11. His subject will be "The Eloquence of Silence."

Commencing Tuesday morning, July 12, Dr. Snape will conduct the morning Bible period for the remainder of the week.

Tuesday evening Dr. Francis M. Larkin of San Francisco, editor of the California Christian Advocate, will talk. His subject will be "Journalism and Christian Propaganda."

There will be a morning period each day devoted to "Methods," in charge of Mrs. Paul Raymond of San Francisco. The daily Children's Story Hour will be directed by Miss Margaret Lobb of Oakland and there will be a program on Thursday evening, directed by Mrs. George M. Thomas of Alameda.

NEW PASTOR ARRIVES.

Following a call extended to him by the St. John Baptist church, Dr. R. F. Abner recently arrived in Oakland after a journey of more than 3,000 miles. The subject of Rev. Abner's first sermon in this city was "The Redeeming Power of the Gospel."

It is announced that Rev. Abner comes highly recommended by the Baptist Brotherhood of America. He is said to have been very active in educational and religious circles for many years. He is a graduate of three leading colleges of this country, and has completed a postgraduate course in Iowa university.

Rev. Abner is a member of the Federated Council of Ministers of America and also of the committee on findings of the Interchurch World

Movement. He is also chairman of the educational board of the National Baptist Convention of America and is past president of the Evangelical Commission which has its headquarters at Marshall, Texas. Dr. Abner has not only interested himself in religious matters, but has been active in municipal and civic life as well. He was endorsed by the political state organizations of Michigan for the registrar of the treasury under the Harding administration and would have been appointed had a change been made in the office.

The church membership is looking forward to a prosperous career under the leadership of Dr. Abner. It is said.

The latest diamond ever found weighed one pound eight ounces.

NEW BOARD WILL
RENDER DECISION
IN PETERSEN CASEReorganized Civil Service Is
Faced With Work Created
in Government Change.

When Chairman John F. Chambers returns from the east July 15 and the civil service board reorganizes for business, that body is expected to have considerable business on its hands created by the changes of administration.

A decision in the Walter J. Petersen case is expected. Petersen and Commissioner Morse are both gone from the city hall but the former registers his innocence of all the charges preferred against him by Morse and the unofficial opinion of board members of the civil service is that this view is a just one.

PETERSEN CASE.
Whether Petersen will be restored to duty as captain of inspectors is unknown. Petersen has often said that he seeks vindication most of all. He also has a good job now in San Francisco. On the other hand, he has a civil service standing because he has his police standing because he has only a short time to go until eligible for a pension.

Other weeks before the civil service board will be hearings of the appeals of Ben Jones and Henry Hansen, secretaries respectively to former Commissioners Morse and Soderberg. Each appealed to the board for reinstatement.

Commissioner Frank Colbourn asserts that the laying off of these two men was legal even though they had a civil service standing which might ordinarily protect them.

COLBOURN TALKS.
"Fines and dismissals are punishment," said Colbourn. "In such cases the victims can appeal to the board. A lay-off, on the other hand, denotes no punishment. I need no executive secretary in my office and hence Jones was laid off. The same applies to Hansen, in Carter's office. The two men who were laid off were not dismissed for bad conduct, but laid off because they were not necessary. If the position of secretary to the commissioner is not abolished, they are the first ones eligible to come back. They cannot appeal against a lay-off. I am willing to stand by this, even if they wish to bring it into the courts."

2000 VETERANS
OF THREE WARS
FIGHT FLAMES

LOS ANGELES, July 6.—Veterans of three wars, more than 2000, garbed in pajamas and nightgowns, turned out early today to fight a fire in the soldiers' home at Sawtelle, near here. The guard house, a wooden structure, in which the fire started, was destroyed, but the veterans prevented the flames from reaching the numerous other buildings. The loss was estimated at \$3000. A carelessly tossed cigarette started the blaze, it was said.

Sugar in 1819 in Scotland cost 43 cents a pound.

Fifteenth Century Drama to
Be Given at Greek Theater

"The Jest" to Be Played and
Presented As in Its Own
Period by Capable Cast.

BERKELEY, July 6.—The Fifteenth century drama "The Jest," by Sam Benelli, will be staged in the Greek Theater of the University of California on Saturday night. It will be the second performance on the Pacific coast, the first time being in the Greek Theater in May. On the evening of that production, however, inclement weather kept many away from the open air theater, and the second production has been arranged for.

In many respects the most consistent production yet given this season in the amphitheatre, "The Jest" is interesting for itself. Samuel J. Hume and Irving Pichel in the parts played by Lionel and John Burroughs, respectively, together with Miss Olga Gray, who has been playing a very successful season at the Esplan Little Theater in Los Angeles, are ably supported by a cast in most parts the same as that for the earlier production. When the play was presented in New York many and various were the comments; for the production was artistically flawless and the play itself was by far one of the most sensational dramas yet seen on an American stage. The consensus of opinion among the reviewers generally was that "The Jest" defied the ordinary standards of judgment and set up standards of its own. It was to be judged by its own period, with no attempt to link that period with the present. It was to be accepted as Florence of the Fifteenth century, with its Pisan mercenaries and their swashbuckling progress, with its "famous" daughters and their light vows, with its protegee of the Magnificent and his cunning born of physical timidity. The conservative "American" wrote following the New York production: "It is Fifteenth century Florence presented in the rich spirit of the time. The Italians of that century did not write tragedies, they lived them. And now Sam Benelli, over three centuries later, has tapped the same source that so richly fed Kyd, Webster and Middleton, and with the same delightful freshness of approach."

COLBOURN TALKS.
"Fines and dismissals are punishment," said Colbourn. "In such cases the victims can appeal to the board. A lay-off, on the other hand, denotes no punishment. I need no executive secretary in my office and hence Jones was laid off. The same applies to Hansen, in Carter's office. The two men who were laid off were not dismissed for bad conduct, but laid off because they were not necessary. If the position of secretary to the commissioner is not abolished, they are the first ones eligible to come back. They cannot appeal against a lay-off. I am willing to stand by this, even if they wish to bring it into the courts."

Pelican Appears in
Summer Costume

BERKELEY, July 6.—The "Pelican," the comic monthly of the students of the University, today made a "flight," the first during a Summer Session for several seasons. The cover page is devoted to a colored cartoon of a bathing girl feeding a fish to a pelican.

Truck and Motor
Wrecked in Collision

ALAMEDA, July 6.—A delivery truck and a touring car were practically demolished in a head on collision at Oak street and Clinton avenue last night, but neither of the drivers was injured. Dr. J. J. Smith, Claremont Manor, Oakland, drove the touring car, and Leo J. Selias, 1319 Park street, the delivery car.

MISS OLGA GRAY, who will play Guicci in "The Jest," to be given in the University of California Greek Theater Saturday night

MORE BOYS FOR
SUMMER CAMPS

An additional 10 or 15 underweight boys will be sent to the fifth annual summer camp of the Alameda County Tuberculosis society conducted this year at Mendocino Springs in the Livermore foothills at the end of the week. Thirty-one boys are now in camp. The first of August will see a group of girls established in the vacation quarters. Unless a greater response is made by the public in meeting the camp budget, however, the preventive work must be curtailed. Checks and donations may be forwarded to Fred B. Taylor, treasurer, Alameda County Tuberculosis society, 3105 Grove street, Oakland.

Gold stars for each youngster who gains in the official weight weighing are being eagerly sought. The children were selected for underweight or small resistance powers from Oakland, Alameda, Berkeley, Hayward and Pleasanton schools. Drinking of a quart of milk a day is a camp rule. Plenty of fresh food, play and rest are prescribed. Arthur Eccleston is camp director. A trained nurse is in attendance.

Games, song books, musical instruments and simple reading matter is being sought by the health promoters who may not indulge in too strenuous sports.

Washington Notes

WASHINGTON, July 6.—Senator Kenyon today announced appointment of a sub-committee of the senate labor committee to investigate the Mine mine war. The sub-committee consists of Kenyon, Iawo; Phipps, Colorado; Shortridge, California; McKellar, Tennessee, and Walsh, Massachusetts. The sub-committee will meet at this week and decide when to begin the investigation at Mingo.

Personal inspection of many hospitals, sanitariums and vocational education centers is planned by the special Senate committee investigating charges of neglect and ill treatment of disabled and sick war veterans in such institutions.

Senator Walsh, Democrat, Massachusetts, at whose request the investigation was authorized by the Senate, expressed the opinion today that the committee would secure

first hand knowledge of the conditions under which maimed and sick ex-soldiers are living.

Samuel Gompers, president of the American Federation of Labor, and other organized labor leaders today lodged a protest with Attorney-General Daugherty against a bill now before Congress providing for trials of defendants outside of their domiciles. The bill, now before the House Judiciary committee, was referred to Daugherty for an opinion as to its constitutionality.

The attorney-general, in hearings today, gave labor leaders a chance to present their arguments. The legislation, which would radically change present court procedure, grows out of the fight of 226 defendants in the coal conspiracy cases.

POCKET IS PICKED.
W. M. Davis, 733 Fourteenth street, reported to the police last night that while he was riding on an Alameda car near Tenth and Washington streets, his pocket was "picked," and a purse which contained \$20 taken.

ITCHY PIMPLES COVERED FACE
Back and Shoulders. Could Not Sleep. Cuticura Heals.

"My face, back, and shoulders were covered with pimples. They were very sore and I could hardly stand the weight of my clothes on my shoulders. The itching was so severe that I could not sleep at night, and my face was disfigured."

"The trouble lasted about three months. I began using Cuticura Soap and Ointment, and after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment I was completely healed." (Signed) Mrs. Theo. Danielson, Jackson, Calif., July 27, 1920.

Use Cuticura for all toilet purposes. Soap: Each Tube by Mail, Address: "Cuticura Laboratories, Dept. L, Malden, Mass. Sold everywhere. Soap: Each Box by Mail, Address: "Cuticura Laboratories, Dept. She Opposes Choice; Hatch
Vice-President.

Harry L. Boyle was elected president of the board of education yesterday afternoon by the votes of all the directors except George Hatch, who was absent, and Mrs. Daisy Short, who arrived just two minutes after the election was over. Hatch was elected vice-president.

At the end of the session, Mrs. Short protested the quick election and frankly asserted that she is "not in favor of the present chairman."

"I stand for harmony," she said, "but had been there on time I would have nominated Director Hatch, even though I stand alone."

The new president appointed the following committee for the year: Finance—Campbell for general control; Chandler for instruction; Boyle for capital outlay.

Hygiene and sanitation—Hatch. Evening schools and community centers—Chandler.

New activities and publicity—Hatch.

Building program—Ormsby. Americanization—Short.

MRS. SHORT OPPOSES.
Mrs. Short asserted that she has served long on various committees and for improvements in the school draw from all of them, but her protest was not acted upon.

Director Fred Campbell announced that the watchword must now be "economy" and that he suggested the elimination of some employees and doubling the work of others. He also voted to reconsider recent decisions to employ an electrical engineer, a heating engineer and a land agent, but the motion to reconsider was voted down.

A plea from residents of Leona Heights for better school facilities and for improvements in the observatory brought the assertion from Assistant Superintendent Lewis E. Avery that the request is "reasonable," and action will be taken at Thursday night's meeting.

The finance committee met in special session this morning to acquaint itself with conditions.

DAVEY WOULD BE SHOWN.
A letter was sent to the board yesterday by Mayor Davey, who wanted to know why \$440,130 is asked for school support during the coming fiscal year. This was the sum asked to give higher compensation to the teachers.

"In 1918," said the Mayor, "the city of Oakland furnished \$33,000 for school maintenance and support. During the war and as an emergency expense the council gave to the schools a much larger amount, until this year we are asked \$440,130."

"I feel that when the city council is called upon by the board of education for this amount of money, it is my duty to the people of Oakland to be able to inform them as to the city exists for appropriating this amount of money to the school department."

The Mayor announced that he has requested Haskins & Selig, the city experts, who audit the municipal accounts, to make an examination of the accounts of the school department.

The Mayor said that he "feels sure the board will be glad to co-operate," and asks that every facility be given the accountants.

The matter was not taken up at last night's meeting, but will be considered by the finance committee, which will lay it before the board.

Health Officials Are Rotary Guests
ALAMEDA, July 6.—Members of the Alameda Health Department were guests of the Alameda Rotary Club at its luncheon meeting today.

Dr. Arthur Hieronymus, Miss Zdenka Buben, city health visitor, and Mrs. C. O. Eilers, the bacteriologist, will give short talks on the work being done by the department.

Personal inspection of many hospitals, sanitariums and vocational education centers is planned by the special Senate committee investigating charges of neglect and ill treatment of disabled and sick war veterans in such institutions.

Senator Walsh, Democrat, Massachusetts, at whose request the investigation was authorized by the Senate, expressed the opinion today that the committee would secure

first hand knowledge of the conditions under which maimed and sick ex-soldiers are living.

Samuel Gompers, president of the American Federation of Labor, and other organized labor leaders today lodged a protest with Attorney-General Daugherty against a bill now before Congress providing for trials of defendants outside of their domiciles. The bill, now before the House Judiciary committee, was referred to Daugherty for an opinion as to its constitutionality.

The attorney-general, in hearings today, gave labor leaders a chance to present their arguments. The legislation, which would radically change present court procedure, grows out of the fight of 226 defendants in the coal conspiracy cases.

POCKET IS PICKED.
W. M. Davis, 733 Fourteenth street, reported to the police last night that while he was riding on an Alameda car near Tenth and Washington streets, his pocket was "picked," and a purse which contained \$20 taken.

ITCHY PIMPLES COVERED FACE
Back and Shoulders. Could Not Sleep. Cuticura Heals.

"My face, back, and shoulders were covered with pimples. They were very sore and I could hardly stand the weight of my clothes on my shoulders. The itching was so severe that I could not sleep at night, and my face was disfigured."

"The trouble lasted about three months. I began using Cuticura Soap and Ointment, and after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment I was completely healed." (Signed) Mrs. Theo. Danielson, Jackson, Calif., July 27, 1920.

Young Filipino
Works His Way to
Higher Education

ANGELES ARABIRAN, twenty-three-year-old Filipino, who has graduated from two universities and is on his way to his home to practice law.

ANGELES ARABIRAN, twenty-three-year-old Filipino, who has graduated from two universities and is on his way to his home to practice law.

Although only 23, Angeles Arabiran, a Filipino, is an attorney with two degrees and permission to practice law before the State Supreme Court of Oklahoma.

Arabiran began his education at Berkeley six years ago, and arrived in Oakland several days ago preparatory to his leaving for his home in the islands. He is staying at the Y. M. C. A.

Without funds, Arabiran worked his way through high school, through the University of Valparaiso and through the University of Oklahoma. He worked as waiter, janitor, servant and sailor in order to secure sufficient funds to continue his education. He was graduated June 1, 1921, with an LL.B. degree from the University of Oklahoma, and the dean of the college recommended him to the Supreme court of the State to practice his profession.

Thugs Tie Sick Man To Bed, Loot Home
RICHMOND, July 6.—Y. A. Floyd, an aged man who lives alone at 401 Tewksbury avenue, was held up in his home by two unmasked bandits about daylight this morning, and robbed of \$75.

Floyd, who is ill, was tied to his bed and left by the bandits. His plight was discovered about an hour later by a neighbor, who notified the police. Floyd says he believes he can identify the bandits, the police say. Floyd's wife recently died, and he has resided alone since that time. Neighbors frequently visit the house to see that he receives proper care. This led to the early discovery of the robbery today.

100,000 Jews Reported Killed in Ukraina
LONDON, July 6.—A hundred thousand Jews are reported to have been killed in new pogroms in Ukraina, according to a Central News dispatch from Copenhagen this afternoon. The report, however, is without confirmation from any other source.

CHAIR WITH LONG
HISTORY GIVEN TO
PUBLIC MUSEUM

Relics of Colonial Days and
"Forty-nine" Added to
Collections.

Donations to the Oakland Public Museum the past month include a child's chair used by Major-General Benjamin Lincoln, a prominent figure in the Revolutionary War, and first Secretary of War for the United States from 1781-84.

The chair, 209 9th street, given with velvet upholstery, and is in a perfect state of preservation. It is included in a collection of articles of historic value given by Mrs. Margaret Blake Alverson, 1622 East 35th street.

Besides the chair, Mrs. Alverson's gifts to the museum include an embroidered linen stand cover, which was made from flax by Mrs. Alverson's mother, Colonial candlesticks and snuffers, a number of paintings, and a quaint old melody brought around Cape Horn in the early days.

A. Rittigstein, 209 9th street, gave the museum a surgical instrument used in tonsil operations which was purchased in Oakland 25 years ago.

Mrs. P. B. Travers, 1835 Prince street, Berkeley, donated a "Union Ticket," being a campaign dogger used when Abraham Lincoln was seeking the presidency.

Mrs. Vernon Waldron, 1523 Grand avenue, presented a collection of antiques and old baskets, and loaned an important number of items of old crockery porcelain and glassware.

Mrs. Sarah C. Berland donated a collection of relics of the Spanish-American war.

THE OAKLAND TRIBUNE contributed a photographic reproduction of an antique Spanish document found in Imperial county by John Mayeroff, a prospector.

Damaged Battleships Returns; Probe Likely
BOSTON, July 6.—The battleship Utah, which started on a two-year European cruise yesterday, was forced to put back to Charlestown Navy yard today for repairs to her gun shutters. There is talk of a court of inquiry to ascertain why the ship was allowed to go to sea with this mechanism in poor order.

The Utah carries the crack rifle team which is to compete in the international rifle match at Lyons, France, next month.

Disease Starts in the Bowels
Self-Poisoning Causes Many Ills

It is a well-known fact that many ailments result from self-poisoning
